Largest Circulation in Duluth.

Where delivery is irregular, please
make immediate complaint at this of-
fice.

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

Communications of not over 300 words, if not
objectionable, will be used entire. More lengthy
articles will, if space demands, have the verbiage
extracted. Communications not of general
interest to the public will be charged for at
regular rates. Personal communications, if
used at all, will be charged for invariably.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb.
12.—An unusually low area of pressure has
moved to, and is now central over the extreme
Northwest. It will probably move East and
bring much warmer weather by tomorrow.
The lowest is 22 below at St. Vincent and
from that it ranges to 25 above over Minn.
and British Columbia.

Light snow falls from scattered places, but
the weather is now generally clear.
The highest temperature here yesterday was
12, the lowest last night 2 below.

DULUTH, Feb. 12.—Local forecast for Duluth
until 8 a. m. Feb. 13: Fair, slightly rising tem-
perature followed Saturday by warmer and
probably rain or snow.

B. H. BROOKS, Observer.

WASHINGTON, Feb. 12.—For Wisconsin and Minnesota: Wind becoming slightly warmer, southerly, with generally fair weather, cloudy weather and possibly snow Sunday. For the Dakota: Increasing cloudiness and light snow; warmer, southerly wind; cloudi- ness with probably snow Sunday.

DULUTH AS OTHERS SEE HER.

Editorial in St. Paul Globe, 1891.—
"What has heretofore commanded five
cents more per bushel than Duluth than
at Minneapolis, because Duluth is in
that proportion nearer the seaboard.
There is no reason why a farmer should
ship wheat to Minneapolis when the
same freight charge will carry it to a
market 50 per cent better."

RECIPROCITY WITH CANADA.

New England and the Northwest alike
demand the breaking down of the barriers
between the States and the Canadian
Dominion. The two countries are in-
habited by a homogeneous people, with
one language, one civilization and a
single destiny.

It is natural, therefore, that the most
amicable feeling should exist between
them, and that the most intimate trade
relations should be established. Nothing
but partisan interests can long op-
pose such a consummation, and with the
growing popular sentiment in that di-
rection there will at no distant day be a
general acquiescence in the free trade
movement.

The advantage to Duluth from such an
adjustment of international affairs would
be very great. Under such conditions
the grain products of the Canadian
Northwest would flow to this port for
Eastern shipment, while a large volume
of freight would pass through Duluth as
the cheapest route to that interior coun-
try. Duluth, too, is the natural manufac-
turing and heavy jobbing center for the
Canadian country, and can never attain
her greatest possibilities except through
unfettered trade. The arrangement
would be mutually advantageous as it
would insure the Canadians a better
price for their surplus cereals and
cheaper freight on their Eastern im-
ports.

The present attitude of our govern-
ment toward foreign countries is such
that a slight extension of the reciprocity
established with the republics to the
south would bring the Dominion into the
charmed commercial circle. It is along
this line, therefore, that effort should be
made. And while we are looking on and
applauding the action of the administra-
tion in opening the way for others, we
should insist that something be done in
the interests of ourselves. Reciprocity
with Canada that should secure free
trade in lumber, coal and grain would
mean much to the Dominion and the
northern tier of states. It would give a
new impetus to the development of the
Northwest on both sides of the border,
would expedite the growth and add vast-
ly to the importance of Duluth. On the
same grounds that we object
to the fencing in of
Northern Minnesota by the forestry as-
sociation, we should urge the opening of
Canada to the natural flow of trade.
Our manifest destiny is to be the com-
mercial center of all the country to the
North and West, and it is in the interest
of all concerned that this prophecy
should be fulfilled. If we are to build a
great commercial city the government
should open the gates.

LINCOLN'S BIRTHDAY.

February 12 being the birthday of
Abraham Lincoln is properly recognized
in his adopted state, Illinois, as a legal
holiday, and this honorable remem-
brance of the most revered American
will soon, we trust, be extended through-
out the Union. It is well that the na-
tion should at intervals take time to re-
call and keep fresh the memories of our
illustrious dead. Were Lincoln living
he would now be only 53, about the
age of Gladstone, and yet in the trans-
formations of the republic his name is
connected with what seems to the rising
generation as a part of ancient history.
Let his memory be embalmed.

The struggle between Newfoundland
and the Dominion of Canada is becom-
ing more bitter as time passes by. The
residents of the West coast of the island
having close trade relations with Canada
which is only about sixty miles away, are
becoming weary of the struggle and have
petitioned the queen for a redress of
grievances. The West shore folks have
long been lightly attached to the rest of
the population because of different busi-
ness interests, and their present course
is no surprise though it will weaken the
position of the provincial government.
The contestants ought to make peace at
once in the interests of both their peo-
ples. They should dwell in harmony

together and reciprocate with Uncle
Sam.

Frank J. Mead in his Washington cor-
respondence to northwestern papers
thinks Harrison's nomination means re-
publican defeat. Frank scores the ad-
ministration for its insincerity till one
would almost think he had a grudge
against it. He hasn't, however, but was
merely a Blaine follower and doesn't
like what seems to him a step from the
sublime to the ridiculous. He declares
then is a pool-bah, and that in a little
time his administration will ensconce it-
self beside those of Rutherford B.
Hayes and James Buchanan. But then,
didn't Rutherford keep the chickens off
the grass and wasn't his administration
the cleanest in the history of the coun-
try?

The Washington Star avers that the
President has been much put out by
Wanamaker's course in the postoffice
departments. The salaries of cross roads
postmasters have lately been reduced
and many little offices abolished. This
effort on Johnny's part to run the gov-
ernment with too cheap help and do
away with the backwoods bureaus for
postage stamps will, it is thought, seri-
ously affect the popularity of the Presi-
dent at a time when he most needs the
affection of his people. The resigna-
tion of Wanamaker is deemed probable
and we may soon expect to see the Presi-
dent return that seaside cottage on a
platter.

Charles M. Foote and Mayor P. B.
Winston, of Minneapolis, want to go to
the Chicago convention from that dis-
trict, while Winston, Foote and J. W.
Lawrence would be pleased to get the
congressional nomination. Winston is
said to be for Hill while Foote is for
Cleveland and Lawrence is not on record
yet. The amount of democratic great-
ness now extant at Minneapolis makes
it difficult to select. It is hardly prob-
able, however, that the boys will make
the congressional fight a Foote race.
Charley would be appressed by a promo-
tion to membership on the national com-
mittee.

Solomon G. Comstock is reported to
have said that he is not in the field for
the congressional nomination, but fit to
select him for the honor he will make
the race. Mr. Comstock while repre-
sented the Fifth district stuck to his
post of duty with a tenacity scarcely
known in congress, and by his untiring
persistent efforts accomplished much for
Duluth and the north end of the state.
Seventh district friends could not do
better than to make him their nominee.
Besides being a hard worker he is about
as cute as the best of them.

The state democratic committee meets
next Tuesday in St. Paul to fix the time
for holding the convention which will
name the delegates to Chicago. The
district will have two delegates to the
national convention, and as there will
be four at large in the state, may possi-
bly be given three. There is every indi-
cation that a solid Cleveland delegation
will be chosen, and that the democracy
of the Northwest would be elated should
Grover become the presidential nominee.

It is now alleged that the Blaine letter,
which was not expected for a month or
two, was written at this time to placate
Clarkson and bring him around to the
support of the President. He was a
Blaine man and nothing but the Plumed
Knight's personal assestion could alter
his purpose of bringing the Old Man
out again. He is now confused and
thinks some of trying to get the nomina-
tion himself.

The Louisiana state campaign is as
not as ever, with republican victory the
probable outcome. An effort to re-
charter the lottery will be made in spite
of statements to the contrary, and party
lines should be forgotten. In the fight
with the common enemy, if the democ-
racy of the state has fallen into hands
that fellowship with the octopus it fully
deserves all the drubbing it will get.

With the present feeling in democratic
circles of the Empire state the nomina-
tion of a Western man may be the out-
come. One thing seems sure that Hill
cannot get enough votes to oust him,
and New York will have to acquiesce
in the choice of Cleveland or see the
nomination go to Sunstunland.

It is rumored from Washington that
the relations between the President and
the South Dakota delegation are strained.
We presume that no chunks of en-
thusiasm got through the strainer. The
trouble seems to be that the Great
Father, like the mother robin, on short
notice, can't always fill the bill.

President Harrison through the secre-
tary of the interior has appointed two
experts, Messrs. Connor and Evans, to
investigate the census office. So many
charges have been made against the
management of the bureau that the
President was impelled to such a course.

The evening paper is the winner in
Duluth, and as a natural result the
Herald occupies a front seat. It is not
edited by a sheriff's posse. To insure
insertion, send all advertising in before
noon.

The Parnellites in parliament will for
the present choose no leader but leave
the place vacant for a time as a mark of
respect to Charles Stewart Parnell.

When Duluth is not dedicating a new
church she is opening an iron mine.
Every day has its duties and responsi-
bilities.

It seems fitting we should at this time
remark that the tout ensemble of Du-
luth's future prospects is hunky-dory.

Now and then you hear something

drop, and then again you feel it. This
week it was feeling sort of weathery.

And now another American girl is
dared, herself furnishing most of the
ducat.

Duluth and the Dominion, one and in-
separable, now and forever! Yip!

Spurgeon is as one of the cedars of
Lebanon that has fallen.

Mr. Blaine's physical condition is such
as the reports from Washington depict, his retire-
ment from the cabinet within a few months
would seem assured. Private life is more in
keeping with the demands of his personal happi-
ness, and there is no further laurels for him to
gain in public station.

The farmers of the Northwest are begin-
ning to talk of their springtime toil. Their lands
were greatly enhanced in market value by last
season's crop, and with a new and worthy peo-
ple they look forward to the time when they shall
drive their teams arduous again.

How to Pin an Ear Back.

William Thomas, of Birmingham, de-
scribes in the British Medical Journal
the following operation by which he has
succeeded in making flaring ears lie
close to the head. The operation con-
sists in the removal from the inner sur-
face of the pinna of an elliptical piece of
skin by sutures. The widest part of
the skin removed should be from half to
three-quarters of an inch, but of course
this depends on the degree of deformity.
It is necessary to divide and turn back
the cartilage, but also to allow of easy ap-
proximation of the skin margins, and
care must be taken to avoid division of
the outer skin with the cartilage.

The after treatment consists in the ap-
plication of a small cotton-wool pad be-
hind the ear and the pinna, the latter
being fixed by a bandage until healing
is complete. Immediately union takes
place and there is hardly any perceptible
scar, the skin of the ear having great
plasticity. A simple method of keeping
the outstanding ears back without opera-
tion is to fix chalk pencils in the pinna
soaked in collodion and placed between
the pinna and the head, the ears being
handaged close to the head until the col-
lodion is firmly set. The adherent splint
thus formed will hold the ear in position
for three or four weeks, when it may be
renewed. It is, however, only a tempo-
rary measure. The principles of the
operation are applicable to various mal-
formations of the pinna.

Gush Davis an Admirer of Napoleon.

Senator Cuth Davis, the other Minne-
sota representative in the upper house,
is the direct opposite of Washington.
Senator Davis looks like Ben Butler.
He was taken for Ben Butler's son not
long ago when he and many remedies were
tried, but with the same effect; the
sore grew steadily worse. At the advice
of a friend I resorted to your excellent
Compound, which soon wrought a won-
derful change. After taking five bottles,
when he found the sore to be almost en-
tirely healed and my general health very
much improved; and now, at the age of
78, I am as good as new, having had no
repetition of the breaking out. I would
recommend Paine's Celery Compound
to all who are similarly afflicted."

St. Joseph, Mich.
Kossuth, Gladstone, Whittier, many
great and good men work constantly in
their old age. But they are very care-
ful of their health. They do not over-
work, they use aids to their strength
continually. Any elderly man or
woman may do the same and prolong
life with happiness instead of shortening
it in misery.

Houses.
We want houses in Endion division.
List them with us—we will sell them for
you.

J. M. Root & Co.

Taking butter from milk
was known in the earliest
times. It was left for our
time to make a milk of cod-
liver oil.

Milk, the emulsion of but-
ter, is an easier food than
butter. Scott's Emulsion
of cod-liver oil is an easier food
than cod-liver oil. It is rest
for digestion. It stimulates,
helps, restores, digestion;
and, at the same time, sup-
plies the body a kind of
nourishment it can get in no
other way.

Scott & Bowne, Chemists, 132 South 5th Avenue,
New York.
Your druggist keeps Scott's Emulsion of cod-liver
oil—all druggists everywhere do. \$1.

WANTED!

29 Board of Trade.

Don't miss Adam Bede's lecture to-
night on "Shakespeare" at Endion
church. Twenty-cent.

Salesmen Wanted.

Young men or women who have a
large circle of Duluth acquaintances and
who will make good salesmen, will
please address "G." Herald office.

The first National Bank building.

BRECHMAN'S PILLS for a bad liver.

The drawing for order of choice of
lots in the town of Merritt will take
place Monday, February 15, at two
o'clock in the afternoon at the offices of
Stryker, Manley & Buck.

No occasion for being hard up when
money can be borrowed at such rates as
we can loan to you. No delay whatever.

STRYKER, MANLEY & BUCK.

OLD MEN WHO WORK.

They Cannot Stop it and it Seems to be
Good for Them. But Their
Vitality Needs Care.

(Cribb.)

Why do old men work?

Because they have been accustomed
to work all their lives and they cannot
cease it.

A steambath under full headway may
have its supply of steam entirely cut off,
but it will run a long distance simply by
its momentum. It is this way with elderly
men who continue to work after they
should retire and give themselves up to
leisure. There are thousands of men
leisure, they are thousands of men
who do this. They have usu-
ally been men of active
brain and industry all their lives,
and they cannot bring themselves to
cease active effort entirely. It is per-
haps well that it is so, for many men
fall into the "fatigue," a half imbecile
condition, which makes life a burden to
them and their friends. This is most un-
fortunate.

But it does not follow that elderly
men should break down in the least, or
lose the vigor which characterized them
in former years. By a careful mode of
living, by a moderate amount of work,
and by the use of some good nerve and
muscle builder, they can continue in
health and strength to a green old age.
But without assistance, not without
something that will prove a food to the
nerves and a vitalizer to the muscles. A
difficult thing to find, we admit, but
it has been found, found only once,
and is the discovery made by
Professor Phelps, of Dartmouth college,
known as Paine's Celery Compound.
There are thousands of aged men and
women today who are kept in compara-
tive youthfulness solely by means of this
great discovery. Their nerves are
sound, their muscles strong, their heads
clear, their appetites good. Such a dis-
covery is a boon to humanity. It is no
cheap nostrum, nervous, sarsaparilla or
devised article, but a chemical discovery;
and it is doing more to lengthen the
lives and make pleasant the later years
of the aged people of America than any
other discovery known in the entire his-
tory of the whole world.

The following are a few of the state-
ments made in its favor:
"I am now sixty-nine years old, and
for a long time have felt weak and full
of pain. I tried many remedies, but
none had any effect until I used Paine's
Celery Compound. I now feel entirely
different. I sleep soundly and well,
walk briskly, and there is new life and
energy come into my whole system."

H. MYLUS, Cleveland, Tenn.

"About two years ago I was all run
down with nervous prostration and gen-
eral debility. Later on a great sore
came on my limb, which caused me
much suffering. Many remedies were
tried, but all with the same effect; the
sore grew steadily worse. At the advice
of a friend I resorted to your excellent
Compound, which soon wrought a won-
derful change. After taking five bottles,
when he found the sore to be almost en-
tirely healed and my general health very
much improved; and now, at the age of
78, I am as good as new, having had no
repetition of the breaking out. I would
recommend Paine's Celery Compound
to all who are similarly afflicted."

WHAT A SLEUTH SAID

Detective McFarlan Tells the Story of His Connection With the Famous "Section 30" Case.

How He Tried Into Some Secrets Under the Name of James S. Mack, of Philadelphia.

I. P. Beck Recognizes Him and Negotiations Fall Through; an Interesting Detail of a Very Fly Cup.

The famous "section 30" case was resumed this morning at 10:25 in the council chamber, although the hour of 10 had been fixed for resumption. There was a big surprise in store for the few spectators, and when the name of James McFarlan, the famous Mollie Maguire detective, was called by Attorney Redington, there was a little buzz of expectant excitement. The human sleuthhound took the stand and was sworn in, and then arose a very warm contest between Counselors Redington and Seymour over the character of the testimony to be introduced, Register Nichols deciding to admit it, whereupon Mr. Seymour said: "In order to save time, I wish to enter in advance my client's objection to every thing which this witness will testify to." The detective's story was revealed in answer to numerous questions, and was substantially as follows:

I am a resident of Denver, Col., and superintendent of the western branch of the Pinkerton National Detective agency. I was a pupil of Allan Pinkerton and have been with the agency for 25 years. I was the traveling agent of the famous Mollie Maguire troubles in Pennsylvania, and through my work four of the Mollies were hung and others were sent to the penitentiary. I arrested the perpetrators of the famous Adams express robbery at Seymour, Ind., and was instrumental in discovering the bomb threats which were attempted to blow up the court house at Cherokee, Wis. The Livingston wood thieves, Wisconsin were apprehended through my assistance and I was instrumental in discovering the place where the bomb was used by the Chicago anarchists were manufactured. I was in Duluth last August, but since then have had charge of the work in the celebrated Graves-Barnaby poisoning case in Denver; the Denver & Rio Grand robbery cases and several others of national importance, spent considerable time investigating the famous "section 30" case in 1886 under the direction of Superintendent Roberts. I was informed by my chief of certain difficulties relating to the location of certain parties on certain lands in Minnesota and was told to "look it up." I came to Duluth and made my self known to W. C. Sargent, as J. S. Mack and by that name I was introduced by Mr. Sargent to Emil Hartmann and by Hartmann to R. D. Mallett. Mr. Mallett introduced me to Judge White. I discovered that a partnership agreement existed between certain parties but while Hartmann's name was not mentioned he was attending with me. Hartmann Aug. 26, 1886, and Mallett Aug. 26, Hartmann talked with me every day except Aug. 22 and 21. He told me the history of the agreements as to the settlement of Hyde and McLeod and upon the disputed tract, that Hartmann & Mallett were to furnish provisions and necessities of life to them and that after final proof on the property was made that Hartmann & Mallett were to receive a one-half interest in the land. At this juncture Judge White entered an objection to everything which the witness might say. "After the locations were made Hartmann discovered that two of the quarter sections were of no account. Hartmann said: 'These things because I told him that I had influence at Washington which could hasten the perfecting of titles, and that I represented a syndicate of Philadelphia capitalists who wanted to invest in mineral lands. I was told by Hartmann that their agreement with the preceptors was locked up in Mallett's desk and that I should see it as soon as Mallett came back from Ashland. I said I could perfect the titles if Mallett & Hartmann could deliver the land after proof had been made. Judge White was reported to have an interest in the lands and offered to sell first for \$2000 and subsequently for \$2500 and lastly \$3000. White's interest was to be equal to that of Mallett & Hartmann on both sections. I met Judge White in his office on Sept. 10, Hyde was here at that time and was to sign a contract to deed over his quarter section as soon as a patent was obtained, at least such were the representations of Mallett & Hartmann. The deal fell off because I refused to advance Hyde \$2000, although Judge White offered to furnish security for that amount. I was asked to put \$50,000 in a bank, and all the agreements were to be placed there and settlements made accordingly upon the obtaining of the patents. I objected on account of the fact that the deal was discovered, and Judge White said: 'Yes, you might be indicted for conspiracy, but you could get out of it easier than we could.' The negotiations ceased about Sept. 10, 1886, partly on account of Mallett's suspicions of me, but more particularly because Mallett had gone to Columbus, Kansas, to attend an important murder trial. When I left Duluth, Mr. Mallett rode over to Superior with me and said that I, P. Beck, a railroad clerk, had informed him that I was the Mollie Maguire detective and that he knew me in Pottsville, Pa. I did not know Mr. Beck, but he evidently knew me, because he came to me one night at Hotel St. Louis and said, 'I want to speak with you.' I went to one side with him and he said: 'If I am not mistaken you are James Mack, the man who unearthed the Mollie Maguire in Pottsville; I met you there.' Of course I told him he was mistaken and tried to give him a cold bluff, but he evidently didn't work, because he said to Mallett, 'Do you know that man?' (the witness) and Mallett said 'yes; he is J. S. Mack, a Philadelphia capitalist seeking investment,' to which Beck replied, 'Not much; he's James McFarlan, one of Pinkerton's big detectives and he isn't going around with you for nothing.' I satisfied Mallett that Beck was mistaken and he went to Chicago where I met Hartmann who told me that they had a new scheme to get the preceptors to give them a 99-year lease of the lands and agree to other matters. I told Hartmann that I was afraid I might be shadowed, and that I would have nothing more to do with it; that I was going to Columbus, Kansas to look after some bonds which had been voted to my syndicate for the purpose of building a smelter at that place. I told him what Beck had said to Mallett about me and he said, 'I always thought that little fly speck Beck was trying to bust up the deal, but don't mind him.' At the conclusion of the detective's

direct testimony the hearing was adjourned until 2:30 this afternoon when Judge White took him in tow for the cross examination which is decidedly spirited frequent fits between witness and counsel taking place.

The Weather.
Feb. 11, 1892.—The following variations in temperature were recorded at Pioneer Fuel company's office, 55 West Superior street, to-day and corresponding date last year:

Forecast—Fair slowly rising temperature, followed Saturday by warmer, probably rain or snow.

CITY BRIEFS.

Smoke Endion cigar. W. A. Foote & Co. The butcher's union will have its second annual ball at Grand Central hall on Wednesday, Feb. 24.

There will be an entertainment in the Hayes block this evening, given by Lincoln camp, Sons of Veterans. The Saturday club holds its regular meeting tomorrow, and will discuss the influence of Luther upon history. The Duluth Choral union meets Wednesday evenings and not Friday evenings, as has been incorrectly reported. The only recognition of today as Lincoln's birthday in Duluth will be the fact that the board of trade will hold no session.

Remember the fourth in the Endion lecture course, a "Defense of Shakespeare," at Endion baptist church to-night.

Humane Agent Henry Haskins has gone to Pine City today to look up the case in which a man of that town is said to have chopped several of his neighbor's trespassing cows in pieces.

After a short program by the Loyal Temperance Legion Mrs. Bessie Laythe of Duluth, will address the young people of Oneota and Hazlewood at the Oneota church, on Friday evening, Feb. 12.

The medical society held the first meeting in its new quarters last evening. Interesting papers were read by Drs. McConnel and Mr. Lomb, while Dr. Lyon gave an oral report of an unusual case. The attendance was large.

The entertainment given at Catholic Association hall last evening proved a success. The comedy went nicely and smoothly and all in the cast did themselves credit. Bishop McClellan gave one of his characteristic addresses during the evening.

P. Nicolson, who has been in the Rocky Mountains for the past two years, extending the Great Northern railway, returned to his home in Duluth this morning. He notes marvelous changes here and is as glad as a lamb to get back into the fold.

The attention of Herald readers is called to the advertisement of the Marais Copper company's gold income mortgage bonds which appears on the first page. The investment is a profitable and safe one, and the bonds are finding a ready market.

The missionary meeting to have been held at the First baptist church Wednesday afternoon and evening was adjourned one week. Dr. Clough, the celebrated missionary, whose sudden illness prevented his attendance, will be present and speak in the evening.

The Chapin-Wells Hardware company held its annual meeting yesterday. The old me the history of the agreements as to the settlement of Hyde and McLeod and upon the disputed tract, that Hartmann & Mallett were to furnish provisions and necessities of life to them and that after final proof on the property was made that Hartmann & Mallett were to receive a one-half interest in the land. At this juncture Judge White entered an objection to everything which the witness might say. "After the locations were made Hartmann discovered that two of the quarter sections were of no account. Hartmann said: 'These things because I told him that I had influence at Washington which could hasten the perfecting of titles, and that I represented a syndicate of Philadelphia capitalists who wanted to invest in mineral lands. I was told by Hartmann that their agreement with the preceptors was locked up in Mallett's desk and that I should see it as soon as Mallett came back from Ashland. I said I could perfect the titles if Mallett & Hartmann could deliver the land after proof had been made. Judge White was reported to have an interest in the lands and offered to sell first for \$2000 and subsequently for \$2500 and lastly \$3000. White's interest was to be equal to that of Mallett & Hartmann on both sections. I met Judge White in his office on Sept. 10, Hyde was here at that time and was to sign a contract to deed over his quarter section as soon as a patent was obtained, at least such were the representations of Mallett & Hartmann. The deal fell off because I refused to advance Hyde \$2000, although Judge White offered to furnish security for that amount. I was asked to put \$50,000 in a bank, and all the agreements were to be placed there and settlements made accordingly upon the obtaining of the patents. I objected on account of the fact that the deal was discovered, and Judge White said: 'Yes, you might be indicted for conspiracy, but you could get out of it easier than we could.' The negotiations ceased about Sept. 10, 1886, partly on account of Mallett's suspicions of me, but more particularly because Mallett had gone to Columbus, Kansas, to attend an important murder trial. When I left Duluth, Mr. Mallett rode over to Superior with me and said that I, P. Beck, a railroad clerk, had informed him that I was the Mollie Maguire detective and that he knew me in Pottsville, Pa. I did not know Mr. Beck, but he evidently knew me, because he came to me one night at Hotel St. Louis and said, 'I want to speak with you.' I went to one side with him and he said: 'If I am not mistaken you are James Mack, the man who unearthed the Mollie Maguire in Pottsville; I met you there.' Of course I told him he was mistaken and tried to give him a cold bluff, but he evidently didn't work, because he said to Mallett, 'Do you know that man?' (the witness) and Mallett said 'yes; he is J. S. Mack, a Philadelphia capitalist seeking investment,' to which Beck replied, 'Not much; he's James McFarlan, one of Pinkerton's big detectives and he isn't going around with you for nothing.' I satisfied Mallett that Beck was mistaken and he went to Chicago where I met Hartmann who told me that they had a new scheme to get the preceptors to give them a 99-year lease of the lands and agree to other matters. I told Hartmann that I was afraid I might be shadowed, and that I would have nothing more to do with it; that I was going to Columbus, Kansas to look after some bonds which had been voted to my syndicate for the purpose of building a smelter at that place. I told him what Beck had said to Mallett about me and he said, 'I always thought that little fly speck Beck was trying to bust up the deal, but don't mind him.' At the conclusion of the detective's

There may be some difficulty between Bill Nye and Mr. Floyd, the manager of "The Cad," the play is by Nye, and when he appears so close to the time it is booked in Duluth he gives the benefit of all the advertising the company is doing, and at no cost to himself. Moreover it is said to be in direct violation of his contract with the dramatic company. Mr. Floyd has been in consultation with an attorney and may issue injunction papers but has not yet done so. The other member of the Nye combination, he can, of course, do nothing. He will not attempt to interfere with his appearance.

"Oh! What a Night!" A very pleasant evening was passed last night in one of the St. Croix avenue buildings, that of Nettie Holmes, an entertainment in which fists, beer bottles, chairs and other miscellaneous articles played a conspicuous part. As a result of this hilarity, Frank Dial found himself before the police court this morning charged with being drunk and disorderly. He pleaded not guilty at first and asked a jury trial, but after thinking the matter over changed his mind and was fined \$15.

New York Stock Market.
The following table of prices on the New York stock exchange is furnished by E. E. Beebe & Co., room 20, Phoenix building:

PERSONAL.
W. B. Silvey is in St. Paul on business. Dr. Graham has returned from Chicago. P. B. Lazier is in St. Paul for a business trip.

Geo. W. Floyd, advance agent for Bill Nye's "Cad," is in the city. Miss Mary Follett is visiting here with her sister, Mrs. W. L. Johnson. Mrs. J. F. McLaren has been called to St. Paul by the illness of her mother.

G. M. Linn, with J. M. Patton & Watson, took this afternoon's Omaha for Chicago. Miss Kate Robinson is visiting in Chicago and will be gone several weeks. Mr. and Mrs. L. M. Merritt have gone to Florida to spend the rest of the winter.

Mrs. W. H. Alden, who has been visiting her parents at Minneapolis, has returned. L. G. Mathews, of the West Duluth Manufacturing company, has gone to Chicago.

After Feb. 17 Mr. and Mrs. W. L. McCormack will be at home at 524 West Fifth street to their Duluth friends. C. M. Hill, of Saginaw, and H. V. Winchell, of Minneapolis, are among the guests at the Spalding today.

Judge of Probate Ayer is putting final official labors, since his severe illness, into conducting the examination into the sanity of John Anderson this afternoon.

Hear Adam Bede tonight at Endion church on "Shakespeare."

Good loans wanted, rates 6, 7, 8 per cent. FREDERICK P. JONES, 510 and 511 Lyceum bldg.

SHE GETS ONE CENT

That is the Jury's Estimate of Mrs. Holding's Damages to Her Reputation.

She Wins a Doubtful Victory in Her Libel Suit Suit With the News.

The Case of Lena Anderson vs. the Duluth Iron Range now on Trial.

The general subject of newspaper libel received a very thorough discussion yesterday before the district court in the trial of Mrs. Quito Holding against the Duluth News company. The case grew out of an article published in the Duluth News on Nov. 16, last, in which were repeated the charges made by Mrs. Monroe, an old lady of the west end, against Mrs. Holding, in which it was alleged that the latter had attempted to have her (Mrs. Monroe) placed in an asylum. Mrs. Holding placed the damage to her reputation at \$10,000 and asked that she may be awarded the same. The jury in the case this morning returned a sealed verdict for one cent. This is a technical condemnation for Mrs. Holding, but a reputation which was only injured to the extent of one small copper cent would not seem to be specially delicate.

The case took up the entire day, and a large number of witnesses for both sides were examined. The case went to the jury just before the adjournment and they returned a sealed verdict, which was opened this morning. The victory is nominally for Mrs. Holding, who has the pleasure of seeing the reputation which she valued at \$10,000 estimated by the jury at a very small fraction of that sum.

The jury in returning the verdict kindly informed the court, which was called to the paper filed away.

Before Judge Start, the case of Lena Anderson vs. the Duluth Iron Range Railway is still on trial. A motion to dismiss was made after the testimony of the plaintiff was in and is now being argued. The suit is brought by the woman to recover \$10,000 for the death of her husband.

The special term tomorrow will be held by Judge Ensign in the probate court room. There are about a dozen cases on the calendar. Before Judge Baxter the case of Peter son vs. Lynch was taken up and was given to the jury just before noon.

The following dispositions have been made of other cases: No. 153, jury waived; 158, continued; 120, settled; 80, jury waived, case submitted and taken off the calendar. In W. G. Sawyer vs. S. J. Wallace, a verdict of \$500.37 was given to the plaintiff. No. 33, continued; 115, motion by defendant to set aside verdict taken under advisement.

The following setting, which is subject to change, of the court cases, has been made by Judge Start. The next of the court cases will be heard on Monday:

Monday: 30, 27, 30, 40, 61, 62, 63, 64, 114, 115. Tuesday: 3, 5, 10, 11, 12, 13, 18, 19, 21, 23, 25, 26. Wednesday: 30, 35, 38, 39, 41, 43, 46, 49, 50. Thursday: 61, 70, 72, 73, 75, 77, 81, 87, 89. Friday: 98, 100, 109, 110, 111, 112, 116, 117, 121, 122, 124, 125.

Saturday: 131, 132, 134, 137, 138, 139, 140, 141, 150, 151, 157, 159, 160, 161, 162.

Trouble Brooding.
There may be some difficulty between Bill Nye and Mr. Floyd, the manager of "The Cad," the play is by Nye, and when he appears so close to the time it is booked in Duluth he gives the benefit of all the advertising the company is doing, and at no cost to himself. Moreover it is said to be in direct violation of his contract with the dramatic company. Mr. Floyd has been in consultation with an attorney and may issue injunction papers but has not yet done so. The other member of the Nye combination, he can, of course, do nothing. He will not attempt to interfere with his appearance.

New York Stock Market.
The following table of prices on the New York stock exchange is furnished by E. E. Beebe & Co., room 20, Phoenix building:

PROSPEROUS MERRITT.

A Rush of Resident Investors and Many Developments.

Merritt, the new metropolis of the mighty Mesaba iron range, is attracting considerable interest now-a-days, and justly so. The reasons for this are numerous and the foundation for it all lies principally in the fact that millions of dollars in rich iron ores lie near the new city. Great as is and will be the Vermilion range the Mesaba range with its variety of iron ores—both hard and soft—will be the greater. But iron or minerals alone are not the only material upon the handling of which the new city will thrive and increase, for the lumber interests are very large and the cut of that section will soon be enormous. Two railroads, exclusive of logging railroads, will move a junction at the town of Merritt—the Duluth & Iron Range and the Duluth, Mesaba & Northern in a few months and there is more than a probability that a third road will enter the field for its share of the vast wealth contiguous to Merritt. Superior investors the new bustling metropolis offers inducements greater than any other section of the state. The valuable developments to be made by the large corporations during the year, and the large increase in population which will undoubtedly take place at once emphasize the assertion that there is no time like the present for investment in the new metropolis.

A Curling Match.
A match game will be played at the Duluth Curling club rink tomorrow, Saturday afternoon, at 2:30 p. m., the losing side donating a barrel of flour to the hostesses. The opposing teams will be composed of the following gentlemen: G. G. Barnum; 1, Thomas Gibson; 2, R. R. MacFarlane; 3, J. J. MacLeod; skip; against Alex. Macrae; 1, Capt. F. N. LaSalle; 2, Donald MacLeod; 3, R. J. MacLeod; skip. The opposing skips have been the late great bonnet at St. Paul where they learned some good pointers and some fine drawings to the curling rink. The match will be a whole grist mill instead of a barrel of flour but the others are not so confident. Visitors welcome.

For Mesaba Mining Land.
Papers were filed in a suit in equity in the United States court last evening, involving two lots in 58-56 which it is alleged are valued at over \$2000. The title of the case is Edwin Ward vs. John Braun, and covers a complicated series of transactions extending from the pre-emption of the property by one Herman Hanson in 1881, down to the present day. The plaintiff asks for a specific decree of the court to declare void, that claims which various codefendants have declared invalid and that the title to the property without interference be vested in him.

"The Heroic Sides of Unheroic People," by Rev. S. W. Sample, tonight in the Lyceum. Tickets 25 cents.

Clara Morris.
In the forthcoming engagement of Clara Morris her new play, "Renee de Moray," is one selected by Manager Price to see to the great excitement of emotion appear in. The play of "Renee de Moray" is adapted by Mr. Clinton Stuart from the French, "La Martyre."

Notice of Partnership.
The undersigned have this day entered into a co-partnership under the firm name of Perry & Cochrane and will conduct a wholesale and retail business in groceries, salt, lime and building materials in West Duluth and New Duluth.

Script for Sale.
I have some cheap script for sale; parties desiring to purchase should call at my office at once.

FRANKLIN W. MERRITT, Second floor, Palladio bldg.

"The Heroic Sides of Unheroic People," by Rev. S. W. Sample, tonight in the Lyceum. Tickets 25 cents.

A Card.
There seems to be a misunderstanding on the part of the public as to the date on which Bill Nye is to appear in this city. The date is Saturday evening, Feb. 12, and the place is the Lyceum. "The Cad," the play of which Nye is the author will appear at a later date and at another house. Bill does not appear in the play and the play isn't in with Nye himself.

Rectification.
THE MANAGERS FOR NYE & BURBANK.

It's a Fact.
That indications point to the most marvelous growth within the next six months of the town of Merritt and the Mesaba range known in the history of rapidly growing mining towns. To be able to get a few lots in a townsite that promises as does Merritt is an opportunity that will not present itself again. Those desiring to avail themselves should be at the offices of Stryker, Manley & Buck, 5, 6 and 7 First National Bank building.

Buy lots in the town of Merritt. For sale by Stryker, Manley & Buck, offices, First National Bank building, second floor.

Paints.
A long line of house and carriage paints, artists' mineral glasses, by F. E. BUTTS & CO., 16 East Superior street.

ROUND TRIP TO NEW ORLEANS, \$16.25.
On Account March Grand Grass Carnival, March 1, 1892.

The St. Paul & Duluth railroad, "Duluth Short Line," will sell, Feb. 22-28 inclusive, round-trip tickets to New Orleans, good returning until March 22, at the very low rate of \$16.25, giving via St. Louis or Chicago, thus giving greatest choice of routes and only two night out. Sleeping car reservations for the entire trip can be made on application to T. C. TICKET AGENT, 425 Spalding house bldg.

"The Heroic Sides of Unheroic People," by Rev. S. W. Sample, Lyceum theater, Friday evening, Feb. 12. Tickets 25 cents.

Three Desperate Conflicts Reported
Between Garza's Followers and
Federal Troops.

Feared that a Popular Uprising of the
Lower Classes Will Soon
Take Place.

The Movement is Encouraged by
Priests Who Hope to Overthrow
the Diaz Regime.

EL PASO, Texas, Feb. 16.—The news
was confirmed here yesterday of a battle
between the revolutionists and federal
troops at Temochi Pueblo in Chihuahua
state, Sonora line, in which 20 men
were killed, most of whom were federal.
A battle also occurred at Las Alamos
where eight soldiers and the command-
ant were killed. Another skirmish
is reported at Jeckery where the revolu-
tionists were driven to the hills and three
killed. Rumors of these actions
between the revolutionists and
federal troops were brought to this
city several days ago, but were
not credited. The man who brought the
information says the priests are telling
the people that the country is in the
hands of a tyrant who will not give them
justice nor their liberty. They tell the
people that they have \$700,000,000
with which to supply arms and ammunition
and provisions. The uprising is being
brought about by the priests, some of
whom claim to be saints and inspired to
tell the people of their wrongs and lead
them to glorious victory. It is feared
that a popular uprising of the lower
classes will take place after the June
election, when Diaz will begin his third
term of the presidency. To counteract
this feeling many Diaz clubs are now
being formed all over the republic.

The Bonaparte Diamonds.
LONDON, Feb. 16.—In the West London
police court today the hearing of the
case of Prince Lucien Bonaparte, who is
sued by his wife Rosalie for fraudulently
obtaining possession of a diamond neck-
lace and other jewels of an amount
in value to \$100,000, was resumed.
Rosalie Clovis Bonaparte, otherwise
known as Rosalie Megone, was called to
the witness stand. She testified that she
received the jewels as absolute gifts from
the defendant at the time of their
marriage, which took place in May, 1888;
that she always believed the marriage
was legal, and that the defendant never
suggested that the marriage was invalid
before September, 1891.

Lunatic Asylum Burned.
JACKSON, Miss., Feb. 16.—The state
lunatic asylum nearly two miles north of
here, has been burning since 4 o'clock
this morning. The fire originated in an
attic room where a lunatic named Brown
was confined. He was burned to death.
About one-third of the immense building
will be saved. The inmates were all re-
moved to the new addition for colored
insane. Dr. Mitchell, the physician, who is
sued by his wife Rosalie for fraudulently
obtaining possession of a diamond neck-
lace and other jewels of an amount
in value to \$100,000, was resumed.

was legal, and that the defendant never
suggested that the marriage was invalid
before September, 1891.

Butter Makers' Convention.
MADISON, Wis., Feb. 16.—The first an-
nual convention of the National Butter
and Cheese association will open here
tonight with speeches by Governor Peck,
Mayor Rogers, ex-Governor Hoard and
E. Northrup, president of the associa-
tion. About 100 butter and cheese
makers from all parts of the country
will be in attendance. It is expected
that a lively discussion will take place
concerning the reorganization of the
association on a larger and more exten-
sive basis.

Disappeared with \$300,000.
DALLAS, Tex., Feb. 16.—Col. J. B.
Simpson, who has been at the head of a
dozen business firms in this city, is miss-
ing and a number of creditors are look-
ing for him. The grand jury, it is re-
ported, has found several indictments
against him and the air is filled with
rumors of crooked transactions. It is be-
lieved that Simpson is on the ocean en-
route either to Europe or South America.
It is estimated that he got away with at
least \$300,000 in cash.

Nothing Small About Dave.
ALBANY, N. Y., Feb. 16.—Up to date
the friends of Hon. D. B. Hill have had
a clear field in securing almost all the
delegates to the state convention. The
returns thus far indicate that Cleveland
will not have more than 20 delegates in
the state convention and Hill will have
the remainder of the 354 delegates.

Blizzard in England.
LONDON, Feb. 16.—The weather is
very cold and a heavy snow is falling
here. Gales and snow storms prevail
throughout the country and traffic is
much impeded. The weather is very
thick in the English channel and a
violent gale is blowing.

Drowned While Skating.
SHAMOKIN, Pa., Feb. 16.—Otto and
Edith, aged respectively 12 and 14 years,
children of Wayne Sincow, a Pennsyl-
vania railway engineer of Sunbury, were
drowned while skating on the Susque-
hanna river at that place last night.

Rioting in Japan.
YOKOHAMA, Japan, Feb. 16.—Elec-
tions are in progress for the next rep-
resentative assembly. Rioting is reported
at several places and there is much ex-
citement.

Into the Silent Land.
PHILADELPHIA, Feb. 16.—Rev. Geo.
Emilen Hare died in this city yesterday.
He was one of the best-known protestant
episcopal clergymen in this country.

Five Were Drowned.
LONDON, Feb. 16.—A fishing boat has
foundered off New Castle, Ireland and
five of its occupants were drowned.

EFFECTS OF THE BLIZZARD.

Tremendous Seas Cause Much Hard-
ship and Loss of Life.

HALIFAX, N. S., Feb. 16.—News is
coming to hand of the disastrous effects
of the blizzard which swept the coast
last Thursday night and Friday. The
schooner Laura, of Gloucester, Mass.,
from St. Jacques, arrived here Saturday
night. The captain reports that he en-
countered the gale at midnight on
Thursday, 20 miles off Whitehead. A
tremendous sea swept the vessel carry-
ing overboard two of the crew, John
Kelly and Colin McKenna. Kelly was
swept back upon the deck by another
wave and McKenna was lost.
The American schooner Ella G.
Thurston has arrived at Lockport and
reports the loss of four men on the
banks. The men were in dories and
could not find their vessel.
The Gloucester schooner S. A. Duncan
foundered off Green island on Saturday
morning. The crew was saved.

A dispatch from Bahia reports the loss
there of the ship Emmanuel. The ves-
sel was on her way to Falmouth.
A private dispatch was received yes-
terday to the effect that the schooner
Nora had picked up the steamer Akaba,
90 miles off Turk's island and had towed
her into that port. The Akaba, bound
from Manzanillo to New Orleans.

GOES TO MEXICO.

Reason Why the Lottery Withdrawn
From the Louisiana Fight.
NEW ORLEANS, Feb. 16.—A dispatch
from New Orleans says that at last the
true secret of the withdrawal of the
Louisiana state lottery from the fierce
political struggle which has been raging
for many months is out. The lottery is
to go to Mexico. Arrangements to that
end have been made with the govern-
ment of that country. The lottery is to
be held in the city of Mexico, and the
proceeds are to be used for the benefit
of the Louisiana Lottery company after 1893.
While the directors of the company have
not as yet held any meeting, the proposi-
tions made by different cities in
other countries, it is known that Mr.
Lynch, the president of the company, and
that practically settles the entire matter.

STURGEON BAY CANAL.

It May Be Purchased and Opened to
Navigation.
WASHINGTON, Feb. 16.—The Sturgeon
bay ship canal is one of the subjects that
has lately been argued before the river
and harbor committee of the house. Repre-
sentative Lynch, of Wisconsin, appeared
before the committee and presented a
very strong argument in favor of the
purchase by the government of this
waterway and opening it to free naviga-
tion. The committee seemed deeply in-
terested in the subject and asked a great
many questions regarding the canal.
In an interview Mr. Lynch said: "I cer-
tainly think this project will be reported
in the bill, and will say further that no
improvement intended to be made by
the committee will afford great facilities
to navigation on the great lakes. The
amount required to purchase the canal is
\$81,333.48 as determined by the investi-
gating committee of the Wisconsin
legislature in 1891."

Latter Day Saints.

PLANO, Ill., Feb. 16.—The conference
of the Latter Day Saints of the latter day
saints is in session in this city. Alex-
ander H. Smith, a son of Joseph Smith
and a brother of the prophet, presided
over the conference. The prophet, Joseph
Smith, the head of the church, is
here; also Elder M. T. Short, who
has just closed a series of meetings
at Carthage, this state, where the
original was murdered in 1844. The
numerical strength of the church is now
30,000. They held a general conference
their greatest strength is in Iowa with
5,000 members, where less illiteracy pre-
vails than in any other state in the
Union. Their next general conference
will be held at Independence, Mo., where
they were driven out and dispossessed of
their property in 1838. Now they have
a membership of 800 and are finish-
ing a \$400,000 edifice.

Throckmorton's Court-Martial.
WASHINGTON, Feb. 16.—It has become
pretty generally known throughout the
country that the defense of the court-mar-
tial in the case of Major Charles B.
Throckmorton, who was tried in New
York some weeks ago on charges of
duplying his pay accounts, is a dis-
missal from the service. A report pre-
vails that the sentence is accompanied
by a recommendation for mercy signed
by all the members of the court. It is
generally expected, in view of this fact
and the officer's long service, that the
President will mitigate the sentence to
two or three years suspension on reduced
pay.

Chicago Pastors Organize.
CHICAGO, Feb. 16.—The protestant
preachers of Chicago formed a new or-
ganization yesterday which will be known
as the Pastors' alliance. The alliance
begins its career with 200 members, all
denominations being represented. It is
organized for the purpose of dealing with
the dangers that will arise during the
holding of the World's fair and for tak-
ing united action in the religious con-
gresses that will be held during that
period. Rev. F. A. Noble was chosen
president and Rev. J. R. Gow secretary
and treasurer.

Honoring Gen. Booth.
LONDON, Feb. 16.—Gen. Booth was ac-
corded an immense and enthusiastic re-
ception at a grand banquet given in his
honor at the Agricultural hall, Islington,
last evening. Over 5000 salvationists
took part in the banquet, which was wit-
nessed by quite 10,000 other people. The
hall was brilliantly lighted and hand-
somerly decorated with flags. The viands
provided were lovely but abundant tea
was the only beverage indulged in.

Russian Relief Fund.
BALTIMORE, Md., Feb. 16.—The news
of this city yesterday started a famine
relief fund for the aid of the Russian
sufferers. It heads the Russian relief
contribution of \$1000. A committee of
prominent citizens has been elected,
among whom are Cardinal Gibbons and
Major Latrobe, to receive and dispose
of the contributions.

Wales to Visit Niagara.

ALBANY, N. Y., Feb. 16.—According
to a private cable dispatch received in
this city yesterday the prince of Wales
and suite are personally passing through
Albany on May 27 on their way to
Niagara Falls, where two floors at the
Clifton house have been engaged. The
party's destination is Ottawa. The ob-
ject of the prince's visit is not disclosed.

We have customer for good or to
room house with modern improvements,
located in the east end.
STRYKER, MANLEY & BUCK.

WORK OF CONGRESS.

Bills Placing Wool and Twine on the
Free List Approved by a Strict
Party Vote.

Ringling Minority Report Against the
Passage of the Bland Free
Coinage Measure.

The Urgency Deficiency Bill Taken
Up and Passed by the
Senate.

WASHINGTON, Feb. 16.—A meeting of
the committee on ways and means was
held this morning at which all the mem-
bers were present except Messrs. Reed
and Payne. The three bills agreed upon
yesterday by the majority of the com-
mittee to place wool, binding twine,
cotton bagging and ties upon the free
list and to reduce the duties on manu-
factured woolen goods were laid before
the committee for action by Chairman
Springer. The bills were approved by a
strict party vote.

A motion was made that the bills be
reported to the house today with a state-
ment that the reports will follow, but this
the republicans objected to, and such a
motion requiring unanimous consent, it
was lost. The statement was made that
the reports will be prepared by tomor-
row. In that case the bills will be re-
ported then.

RINGING MINORITY REPORT.

The Minority Protest Vigorously
Against the Bland Silver Bill.
WASHINGTON, Feb. 16.—The report of
the minority members of the committee
on coinage, weights and measures
against the passage of the Bland free
coinage bill is signed by
Messrs. Tracy of New York, Taylor
of Illinois, Stone of Pennsylvania,
Williams, of Massachusetts, and John-
son, of North Dakota. The minority
protest vigorously against the Bland bill
and recommend the passage of a meas-
ure authorizing the president to invite an
international monetary conference as the
only means of settling the question
of silver, and conclude with an argu-
ment that the bill is unwarrantable to risk
and is without advantage to the country.

Work of the Senate.
In the senate today Mr. Vance, from
the committee on finance, reported back
a bill introduced by Mr. Gibson, provid-
ing an income tax to pay pensions and
the salaries of retired officers, and asked
that it be indefinitely postponed, as it
was a revenue bill and should originate
elsewhere. It was so ordered.

Senator Sherman's credentials on his
election to a sixth term were laid before
the senate by the vice-president and
filed.
The vice-president laid before the
senate a communication from the treas-
ury department stating that the appro-
priation of \$85,000 for printing, etc., for
that department was exhausted and ask-
ing that an urgent deficiency appropriation
of \$100,000 be made for the balance
of the fiscal year.

Old claims for back pay of ex-Senators
Joshua Hill, of Georgia, and H. R.
Kew of Mississippi, were referred to
the committee on contingent expenses.
After much discussion the urgent de-
ficiency bill was passed, including an
appropriation of \$250,000 for the com-
pletion of the eleventh census, the bill
amended by the senate carried a total
appropriation of \$38,000.

At 2 o'clock the Idaho election contest
was called up.
In the House,
In the house today a resolution was
passed calling for an account of the
treasury of expenditures for the recep-
tion and care of immigrants and laws
operations under the immigration laws.
The report of the special immigration
commissioners who visited Europe last
year is also called up.

A bill was passed to extend the
privileges of transportation without ap-
praisement to the port of Sandusky.
Mr. Brown, of Indiana, reported the
Craig-Stewart election case and said he
would call it up on Tuesday.
In the morning hours the house con-
sidered the bill reported from the com-
mittee on interstate and foreign com-
merce granting to commercial travelers
reduced rates of transportation. Mr.
Rayner, of Maryland, defended the bill.
The minority report charged that the
bill was in the interest of monopolies
and large shippers like the Standard Oil
company.

THINKS BLAINE MAY WEAKEN.

Teller Oppines That Blaine May Not
Persist in His Declination.

DENVER, Col., Feb. 16.—Senator
Teller says: "There is a suspicion that
Mr. Blaine will not persist in his declina-
tion if his friends continue to demand
that he shall remain a candidate. I see
no reason why the republicans of Colo-
rado should favor Mr. Harrison's re-
nomination, and I don't think he is
stronger elsewhere than various other
candidates who will be presented at the
Minneapolis convention. I have no per-
sonal controversy with President Harri-
son, but he has been the persistent op-
ponent of free coinage and of every step
looking to the rehabilitation of silver. I
think we shall secure the passage of a
free coinage bill through congress, the
opposition of the President to the con-
trary notwithstanding. But no one be-
lieves that the President will under any
circumstance approve such a measure."

Comparative monthly reports pub-
lished in Pioneer Fuel Co.'s space the

LOHRY FOUND GUILTY.

An Important Suit Which Affects a
Large Amount of Property.

The criminal calendar consisting of
one case is completed, the jury in the
case of John Lohry returning a verdict
of guilty of assault in the third degree.
Lohry was put on trial before Judge
Start yesterday afternoon. When Lohry
was put on trial he gave his correct
name as Generalterm Willausti. He
was charged with assault in the second
degree for an attack on Mathew War-
ren with a knife in a saloon at Mesabi.
The defense was that Warren was drunk
and assaulted Lohry and the cutting was
done in self defense. The jurors in the
case were: Asa Daily, James Ready, R.
C. Ray, G. Krause, A. M. Prudden, C. S.
McMillen, J. A. McKennie, C. D. Marble,
W. P. Hurlburt, F. J. Breeze, J. S. Elliott
and A. C. Kingman.

Lohry made a good fight but fate was
against him and also the evidence.
Lohry was sentenced to a fine of \$100 or
60 days in jail.

The case of Sarah S. and J. W. Brad-
shaw vs. The Duluth Imperial Mill com-
pany was also taken up yesterday. This
is one of the important cases of the term.
The mill company purchased its present
property from Munger & Peck, and re-
ceived, as they supposed, title to the
property to the dock line. Now the
Bradshaws, who some years ago bought
lots on the island between the shore line
of the company's property and inside the
dock line, claim that they are still the
owners of the riparian right, and that the
mill company has no right to it. The
amount involved is about \$20,000, but the
decision will affect nearly \$100,000
worth of property. The case was dis-
missed as to Sarah Bradshaw, and as to
the other plaintiff, tried and submitted.
The court calendar for today was ex-
hausted at noon. The cases set were
disposed of as follows: Fagon vs. Eaton,
continued; McNeal vs. Larson, dismissed;
Olson vs. Olson, tried and submitted;
Fairchild vs. Fairchild, judgment for
plaintiff; Emma Kurtz vs. West Duluth
land company, tried and submitted.
Before Judge Baxter: Duluth Gas and
Water company vs. City of Duluth, tried
and submitted; Red River Valley National
bank vs. Maher, First National bank vs.
Taylor & Emery, and Duluth & Iron
Range Railroad company vs. City of
Duluth, judgment in each case for plain-
tiff.

PERSONAL.

Moses Clapp is in the city.

Catesby Jones has returned from St.
Paul.

C. T. Clements is home from Tal-
la-pooosa.

W. C. Sherwood returned yesterday
from Indiana.

Samuel A. Phillips has returned from
a business trip to Chicago.

J. J. Squires, the assistant of City At-
torney Allen, is in St. Paul.

F. H. Quinby and W. E. Covey re-
turned from St. Paul this morning.

F. S. Wardwell of the street railway
company, is in St. Paul on company busi-
ness.

James H. James and Dr. Barrett were
passengers on this morning's train from
Chicago.

Geo. W. Laux returned today
after a month's visit with friends in St.
Joseph, Mo.

City Engineer Keating, who has been
making a trip to the Pacific coast, is ex-
pected home some time this week.

Dr. E. W. Dean, of Pittsburgh, an old-
time friend of Dr. Graham, is spending
a few days with him looking over the
city.

C. W. Wells, F. C. Stone and C. H.
Davis are a party of Saginaw gentlemen
all of whom are interested in Duluth
concerns, who at the Spaulding.

Mr. and Mrs. Horace Williston left
this afternoon for New Orleans, Mr. J.
A. Manchester, the mother of Mrs. Wil-
liston who has been visiting her, re-
turned today to New York.

William Stevens, R. E. Paterson, E.
L. Winje and H. Macdonald form a quartet
of Oddfellows who went to St. Paul this
afternoon for the purpose of attending
the grand encampment of the order.

President Hugo, of the city council, is
in St. Paul attending the grand encamp-
ment of the I. O. O. F. It is said that
Mr. Hugo is the probable next grand
patriarch.

One good organ, \$30.

DULUTH MUSIC CO.

WILL GO TO OSWEGO.

Secretary Thompson Instructed to Ac-
cept the Invitation of That City.

At this morning's meeting of the cham-
ber of commerce it was decided that
Secretary Thompson should accept the
invitation from Oswego to address the
mass convention to discuss waterways
which will be held there on Thursday of
next week. There was some discussion
as to whether this invitation or the one
of the Trans-Mississippi congress at
New Orleans should be accepted. Mr.
Thompson leaves on Tuesday for the
East.

It was reported to the chamber that
a party, including among others, An-
drew Carnegie and President Smith, of
the New York chamber of commerce,
were visiting in California and would re-
turn over the line of the Northern Pa-
cific. It was decided to make an effort
to induce the party to visit Duluth and
the range. It was also decided to ask
our senators to use their efforts to have
Duluth made an official local forecast
station. The matter of the Montreal ex-
cursion was left open for one week to
allow more replies to be received from
those intending to go. The responses
yet received are not very encouraging.
New members were elected, as follows:
Bayha & Co., Dr. J. R. Howes and D. R.
Osborne. After finishing the regular
business an executive session of about
an hour was held.

To Stop the Work.

Judge Ensign, on petition of the North-
western Loan and Trust company and
other interested property owners, has is-
sued an injunction restraining the offi-
cers and council of the village of West
Duluth from granting the contract for
improving certain streets. Irregularities
in the procedure of the council is the
cause alleged by the petitioners.

"On or Before" Mortgages.

Largest Circulation in Duluth.

Where delivery is irregular, please
make immediate complaint at this of-
fice.

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

Communications of not over 200 words, if not
objectively, will be sent entire. More lengthy
articles will, if space demands, have the verbi-
age extracted. Communications not of general
interest to the public will be charged for at
regular rates. Personal communications, if
used at all, will be charged for invariably.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb. 16.—
Fair weather, with light winds, and a
morning and evening frost. The coldest day
in Minnesota, Manitoba, 70° below zero, the
warmest in Denver, 34° above.

The lightest temperature here yesterday was
5° (the lowest last night, 10° below).

DULUTH, Feb. 16.—Local forecast for Duluth
until 5 p. m., Feb. 17: Fair, slightly warmer;
probably fair and warmer tomorrow.

R. H. BROS. OBSERVER.

WASHINGTON, Feb. 16.—For Wisconsin:
Warmer; fair weather; winds generally southerly;
warmer and probably fair Wednesday.
For Minnesota and the Dakota: Warmer;
southerly winds; generally fair weather today;
some cloudiness and probably occasional light
snows Wednesday.

SAFE AND ELASTIC CURRENCY.

The question of a safe and elastic cur-
rency is, next to the tariff, the most
absorbing political question of the day.

It is not, as yet, so distinctly a party
question, but is none the less trouble-
some to that account.

With the probable extinction of our present bank note
system through the maturity and pay-
ment of the bonds on which such issues
are based, many plans for an issue of
paper money have recently been sug-
gested. The February Forum contains
an article from John Jay Knox, whose
death occurred a week ago,

in which he presents the plan he once suggested to con-
gress. Briefly his proposition is that na-
tional banks be permitted to issue cir-
culation upon 75 per cent of their capital;
half of such circulation to be secured by
gold or silver coin or bullion, or by gov-
ernment bonds until their maturity; the
other half of the circulation to be se-
cured by a safety fund in the form of a
per cent tax upon the circulation of all
the banks.

During the twenty-nine years that our
national bank system has been estab-
lished 464 banks with an aggregate cap-
ital of \$683,000,000 have been chartered
and only 164 with a capital of \$30,000,000
have failed. With an issue of \$300,000,-
000 bank notes the 1 per cent tax would
be \$3,000,000 a year, while under the
present system with an average bank
note circulation of about that amount the
losses have been but \$1,000,000 annually,
or one-third of the one per cent tax. As
one-half the circulation under the pro-
posed system would be secured by gold
and silver, the rate of loss could be six
times greater than at present without
affecting the government. Such an in-
crease of recklessness is not to be pre-
sumed, and therefore the plan seems to
possess every element of safety. When
a large safety fund is accumulated, it is
proposed that the circulation be in-
creased to the full amount of the capital,
especially at that season of the year
when the crops are being moved and
money is most needed. This additional
circulation would be printed on yellow
paper and could be readily retired by re-
quiring it to bear a low rate of interest
after a given date. Thus the system
would also possess elasticity, supplying
a need that is so keenly felt every
autumn, and it is not thought by the
author that any undue profits would
accrue to the banks.

Mr. Knox makes a strong argument,
too, for a sound currency, whether coin
or paper, and it is a coincidence worthy
of note that both he and Mr. Windom
should have died with a plea for honest
money on their lips.

The city council last night accepted
the invitation to attend the reception at
the opening of the new Y. M. C. A.
building this afternoon. We are not in
receipt of any printed program, but it is
understood that Alderman Bob Ken-
nedy will speak on the influence of the
Y. M. C. A. work on Sixth ward politics;
President T. W. Hugo will tell of its
electric effect in the big Fourth; Alder-
man Dingwall will enlarge on the politi-
cal successes since the Bethel was estab-
lished in the First; Alderman Weiss
will touch on the gentle influences that
led him from Sunday journalism to a
more peaceful and consistent life, while
other statesmen will treat of the changed
conditions in their political subdivisions,
and City Clerk Burke will sing a solo
and lead the Old Hundred, while City
Attorney Allen will be present to har-
monize the law and the gospel. With
these and other features the afternoon
will be one of the pleasantest since the
late election.

The free silver men in the house have
secured 120 signatures to their petition
asking a special order for the consid-
eration of the several silver bills. It is
therefore likely that a day will be set
and the silver-tongued orators turned
loose. They should remember that they
are now coining or storing away and
issuing paper representatives for more
silver than our own mines produce
without bringing the white metal to par
with gold or materially affecting the
market value of bullion. As the Presi-
dent said in his annual message to con-
gress, silver was worth \$0.95 per ounce
before the prospective legislation of 1890
affected it, and on Nov. 1, 1891, it was
quoted at \$0.96. To be at par it must

rise to \$1.20 per ounce, which certainly
seems a long way off. While its re-
deemer liveth, silver will be accepted
everywhere at its face value, but free
silver means no redeemer and a mere
bullion value. Which shall we choose?

THE KEELY CURE.

Some Criticisms of the Modern Cure for
Drunkennes.

(Buffalo Express.)

The reaction against the Keely bi-
chloride-of-gold cure for drunkennes
seems to have become general. A re-
cent case in which it has failed is that of
Walter B. Ecarle, of Poughkeepsie. He
was in a Keely institute from Decem-
ber 31st until near the end of January,
when he was discharged, apparently
cured of his habit. About ten days ago
he suddenly became insane, though up
to that time he was perfectly rational
and had not touched a drop of liquor
since his discharge from the institute,
two weeks ago before he developed men-
tal disorder. His parents never knew
that he had exhibited any signs of men-
tal disorder in the institute or before he
went there, and Mr. Ecarle's friends
claim that the neglect on the part of the
institute people to notify them of the
symptoms shown by their patient is a
suit for damages against them. Charles
A. Earle, assistant janitor of the Keely
institute, is a cousin of the patient, and
he intimates that this and other
deaths may lead to an investigation on
the part of the state board of health and
the State Medical society into the
methods followed by the institute.

James Kerr, of Anacosta, Mont., is
another one whom the Keely cure has
failed to cure. He writes about it:

"The directors of the Washington
Home of Chicago, a patient I had been
conducted after the best and highest
ethics of the humanitarian and the sci-
entist—boldly aware that scores of the
"cured" inmates who have graduated
from Dwight, Ill., are now inmates of
their Chicago home; and, further, that
the later are unanimous in their con-
temptuous verdict that the alleged
Keely cure is a fake.

A number of leading regular physi-
cians of Chicago, determined to ascer-
tain the truth or falsity of Dr. Keely's
pretensions, procured some of the bi-
chloride of gold and subjected it to
chemical analysis. They discovered
strychnine was the most potent ingre-
dient in the preparation, and it is un-
derstood before reading further—strychnine
has long been used by the medical pro-
fession as an antidote for the thirst or
craving for alcoholic stimulants. It pro-
duces an aversion to liquor; but this is
not permanent by any means. It may
be injected hypodermically or adminis-
tered internally.

The patient, after six or seven days of
the treatment, discovered to his dismay
that he cannot see to read and must have
recourse to spectacles. His hearing be-
came defective and uncertain also, and,
in short, his moral nature became un-
dermined and debilitated instead of
strengthened. He is taught to rely abso-
lutely on the Keely cure, and he is now
only safe, and thereby substitute for
fidelity resolve and high principle of ac-
tion—what a drug!

The Express was very suspicious of
the Keely cure at the time the ture
over it first broke out, as it was as the
Keely consumption cure and the panacea.
It is always safe to distrust
anything in the medical line which pre-
tends to be infallible.

A Valentine.

(Stephen Blake in New York Home Journal.)

On this day I have loved thee long,
And I must make bold with the rest,
To tell thee how I love thee best.

The one I love the most and best;
Yet would I have the love of thee;
For I would have thee love me best!

The first I love is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;
And I am never quite secure.

That love on love, that love on love;
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

And I am never quite secure.

And I am never quite secure.
When all this world is like a child,
To give his heart to mine in his;
His love, his love, his love, his love;

THE KEELY CURE.

Some Criticisms of the Modern Cure for
Drunkennes.

(Buffalo Express.)

The reaction against the Keely bi-
chloride-of-gold cure for drunkennes
seems to have become general. A re-
cent case in which it has failed is that of
Walter B. Ecarle, of Poughkeepsie. He
was in a Keely institute from Decem-
ber 31st until near the end of January,
when he was discharged, apparently
cured of his habit. About ten days ago
he suddenly became insane, though up
to that time he was perfectly rational
and had not touched a drop of liquor
since his discharge from the institute,
two weeks ago before he developed men-
tal disorder. His parents never knew
that he had exhibited any signs of men-
tal disorder in the institute or before he
went there, and Mr. Ecarle's friends
claim that the neglect on the part of the
institute people to notify them of the
symptoms shown by their patient is a
suit for damages against them. Charles
A. Earle, assistant janitor of the Keely
institute, is a cousin of the patient, and
he intimates that this and other
deaths may lead to an investigation on
the part of the state board of health and
the State Medical society into the
methods followed by the institute.

James Kerr, of Anacosta, Mont., is
another one whom the Keely cure has
failed to cure. He writes about it:

"The directors of the Washington
Home of Chicago, a patient I had been
conducted after the best and highest
ethics of the humanitarian and the sci-
entist—boldly aware that scores of the
"cured" inmates who have graduated
from Dwight, Ill., are now inmates of
their Chicago home; and, further, that
the later are unanimous in their con-
temptuous verdict that the alleged
Keely cure is a fake.

A number of leading regular physi-
cians of Chicago, determined to ascer-
tain the truth or falsity of Dr. Keely's
pretensions, procured some of the bi-
chloride of gold and subjected it to
chemical analysis. They discovered
strychnine was the most potent ingre-
dient in the preparation, and it is un-
derstood before reading further—strychnine
has long been used by the medical pro-
fession as an antidote for the thirst or
craving for alcoholic stimulants. It pro-
duces an aversion to liquor; but this is
not permanent by any means. It may
be injected hypodermically or adminis-
tered internally.

The patient, after six or seven days of
the treatment, discovered to his dismay
that he cannot see to read and must have
recourse to spectacles. His hearing be-
came defective and uncertain also, and,
in short, his moral nature became un-
dermined and debilitated instead of
strengthened. He is taught to rely abso-
lutely on the Keely cure, and he is now
only safe, and thereby substitute for
fidelity resolve and high principle of ac-
tion—what a drug!

The Express was very suspicious of
the Keely cure at the time the ture
over it first broke out, as it was as the
Keely consumption cure and the panacea.
It is always safe to distrust
anything in the medical line which pre-
tends to be infallible.

A Valentine.

Great Eastern
The largest and finest Clothing House in the city.
Manufacturers who save the Public Middle-men's profits.
We close every evening at 8 p. m. except Saturday.

SWEEPING REDUCTIONS.
You'll scarcely be able to hold your breath when we tell you that we have cut the prices on our entire line of Overcoats 25 per cent. We have given our customers a good many glittering opportunities, but this is the first time we've made such wholesale work of it as that. If you've been waiting for the chance to make one dollar do the work of two, you've waited just long enough—delays are dangerous now. Don't procrastinate until the tide turns in the other direction; you can scarcely call it buying when you purchase on these terms. The offer will only hold good this week.

M. S. BURROWS
& CO.
Cor. Third Ave. W. & Superior St.

The Weather.
Feb. 16, 1892.—The following variations in temperature were recorded at the Pioneer Fuel company's office, 320 West Superior street, to-day and corresponding date last year:

	1891	1892
12 m.	7 a. m.	1892 2001
1 p. m.	5 p. m.	1891 1901
2 p. m.	10 p. m.	1892 1901
3 p. m.	11 p. m.	1891 1901
4 p. m.	12 m.	1892 1901

THEY DON'T LIKE IT

The Tolling Thousands of France Awake to the Injustice of the New Tariff.

Which Makes the Rich Richer, the Poor Poorer, and the Hungry Hungrier.

A Movement Started to Abrogate the Duties on Articles of Food and Raiment.

PARIS, Feb. 17.—The motion by M. La Fargue, son-in-law of Carl Marx, in the chamber of deputies to abrogate the new tariff so far as it imposed duty on articles of food, is the expression of a feeling that has been gaining strength in Paris and other cities among the class that M. La Fargue represents.

M. Mesneur, a deputy from Paris, says: "What is the most deplorable is that the augmentation caused by the tariff affects the first necessities of life. Taking a workman who earns, let us say, 1800 francs a year and what do we find? That he will have to pay at least from 180 to 200 francs more taxes in the shape of customs. Everything he eats, drinks or wears, will be dearer. It is impossible for him to be more economical; already his family suffers from the high price of food and now he is called upon to make more sacrifices. I am well aware that it is said that the tariff will improve after the period of transition, but alas, when once a tradesman raises the price of his articles it is a long time before he will lower it again, and perhaps never. M. Lochery, another Parisian deputy who voted with M. La Fargue, said that no time should be lost in returning to the old system. "We must at once undo what we have just done, if we desire to avoid a reaction full of peril to the country. To wait for the results of the new tariff would be to prepare immediate ruin, and the demonstration would be fatal to trade and commerce. Therefore, I, for one, am ready to solicit the chamber to restore the mistake it made in having the proposal referred to a committee, the agitation has shown a strength that will probably result shortly in the renewal of the motion for repeal."

Premier Abbott III.
OTTAWA, Feb. 17.—Premier Abbott is suffering from nervous exhaustion brought on by overwork and when he reached his 70th year recovery is slow. A leading conservative, who is the confidence of the government, said today that it is now pretty generally understood that when parliament meets next week Premier Abbott will call a caucus of the party, tender his resignation and request them to elect a new leader. There is little doubt that, in the event of Abbott's retirement, the choice will be Sir Charles Tupper would be called upon to succeed him.

WAS A CANARD.
The Louisiana Lottery Does Not Contemplate Removing to Mexico.

NEW ORLEANS, Feb. 17.—President Conrad, of the Louisiana Lottery company, denies the report that the company intends to remove to Mexico. He said that the story is false and was evidently started by an enemy of the company or for the purpose of boomeranging Mexican lottery stock. The lottery will continue its existence here until the expiration of its charter and after that time it will not seek a home anywhere.

No More Russian Hebrews.
NEW YORK, Feb. 17.—The agents of the White Star, Hamburg American and North German steamship lines cabled directions to the agents in Europe yesterday to accept no more Russian Hebrew passengers. This refusal of the companies to take any more of these passengers will prevent the spreading of typhus fever here. The action of the companies was prompted by the expressed determination of the port health officials to detain at quarantine every vessel which has aboard as passengers Russian Hebrews.

Will Not Antagonize the Reading.
CINCINNATI, Feb. 17.—Phil D. Armour said yesterday in reference to the proposed Granger combination to beat the Reading deal: "I have not heard of it. I do not believe that any important arrangement between the St. Paul and another of the Western properties could be contemplated without my hearing of it."

President Miller, of the St. Paul, said last evening: "All I know of the deal is what I see in the papers. I do not believe the report has any foundation. The Reading deal would naturally stimulate the circulation of other rumored combinations."

Nebraska's Famine Contributions.
OMAHA, Neb., Feb. 17.—Nebraska's contributions to Russia will leave for the East on two trains today, one train from Omaha and the other from Lincoln. There are about 2,000,000 bushels of corn, which will be shipped to Akron, Ohio, ground, sacked and then sent to the seaboard. The two trains will be made up of 32 cars, under the charge of Dr. Ludden, state labor commissioner.

National Labor Conference.
ST. LOUIS, Feb. 17.—Up to this morning to reform and industrial organizations have notified the executive committee of the national labor conference to be held in St. Louis next week of their intention of being officially represented. Nearly all roads have given one fare for the round trip and a much larger attendance is expected than was at first anticipated.

For a \$50,000 Purse.
BUFFALO, N. Y., Feb. 17.—C. J. Hamilton, the millionaire horse owner, and Gen. Leavitt, of Boston, are arranging to trot their respective horses in a race at Lexington this spring, for \$50,000 a side. Hamilton's Chinese Girl, 3 years old, will be matched against Ralph Wilkes, of the same age.

Jesse James' Slayer Shot.
DENVER, Feb. 17.—A special received here says that Bob Ford, the slayer of Jesse James, was shot and killed today during a row in a saloon at Creede, Col.

CLEVELAND THE FAVORITE.

March 31 Named for Holding the Democratic Convention at St. Paul.
ST. PAUL, Feb. 17.—The democratic central committee met here yesterday afternoon and named March 31 as the date and St. Paul as the place for the convention to name delegates at large, to the Chicago convention. A count of noses showed 17 of the 19 members present for Cleveland and 2 for Hill. Reports from all parts of the state indicated that Cleveland would get all of the 18 delegates from this state. In case of his failure to get the necessary two-thirds at Chicago, Boies will doubtless get most of the votes of Minnesota although there is a strong under current for Flower.

Plot to Kill President Montt.
VALPARAISO, Feb. 17.—Plots to kill President Montt and Gen. Canto have been discovered and thwarted. The attempt on President Montt's life took place last Saturday night. The miscreants engaged in it removed the rails some distance north of Manie station. Their intention was to wreck the train which Montt was announced to take. The fortunate escape of the president of the rails by the railroad officials prevented a serious disaster.

No Longer Worship's Bacchus.
DULUTH, Ill., Feb. 17.—The convention of reformed drunkards has adjourned after changing the name of the organization to the "Associated Keely Bichloride of Gold Club." Branch clubs will be formed all over the world. S. E. Moore, of Pittsburgh, was chosen president; W. P. Arnold, of Washington, Frank P. Clark, of Kansas City, vice presidents, and J. D. Kehoe, of Kentucky, secretary and treasurer.

Blown Into Fragments.
LIMA, Ohio, Feb. 17.—Yesterday the sawmill of Jacob Kislak, about 10 miles from here exploded, killing Mr. Kislak, his son Frank, and John Shiverdecker, an employee. The men were blown into fragments, no piece larger than a hand being found.

Rich in Silver.
DENVER, Feb. 17.—Another great strike was made in the Blue Bell at Cripple creek late yesterday afternoon. The ore comes out in massive chunks weighing 300 pounds. The entire mat is almost solid silver. The stock has gone up with a jump.

DULUTH ALL RIGHT.

Her interests are being well cared for at Washington.

State Senator F. B. Daugherty returned from a successful business trip to Washington yesterday. He was asked by a Herald representative how Duluth matters were getting along at the capital the senator remarked that things were in good shape for the water route and the head of the lakes. He met Senators Davis and Washburn and Congressmen Harries, Halvorsen and Hall of this state. Daugherty is doing good work for Duluth's interests and alive to every movement for improving the route to the seaboard. Charley Johnson, secretary of the senate, also keeps the northwest in view, and Chairman Blanchard, of the river and harbor committee, is doing faithful work for the lake route. Since his visit here last summer Mr. Blanchard is deeply interested in the action of congress affecting our commercial interests.

Senator Daugherty thought the total appropriation for the lake route would be about \$175,000. Secretary Thompson's address before the committee made a good impression, and Capt. J. W. Miller is doing good work for Duluth. The captain is a companionable fellow with a nodding full of facts and statistics, and is frequently consulted by Chairman Blanchard and other members of the committee to take matters and the needs of our harbor. He has thus established a kindly feeling and wide influence among the useful members of the house and is doing an invaluable service for us here.

The Duluth library, the senator thought, would be made a government depository, and as to the option bill, it looked as if some modified measure would pass. As the Duluth library is a government depository, it would be made a government depository, and as to the option bill, it looked as if some modified measure would pass. As the Duluth library is a government depository, it would be made a government depository, and as to the option bill, it looked as if some modified measure would pass.

BURNED TO DEATH.

Henry Hellenberger Burned While Trying to Save His Horses.

J. A. Newton, a good Duluth photographer, came in over the Duluth & Winnipeg this morning and reports a terrible occurrence at Floodwood at an early hour today. About daylight a fire was discovered in a barn belonging to Henry Hellenberger, in which were five horses and other valuable property.

The flames spread very rapidly and before a horse could do anything to rescue the horses it had become dangerous to enter the building. In spite of this Hellenberger made a brave attempt. He rushed into the flames, but was overcome by the heat and did not return. By this time it was impossible to make any further entrance either to rescue the man or the horses, and both were burned to death.

The building was totally destroyed and no traces of life remained beyond a few charred bones. The loss, including the horses, was nearly \$1000. No particulars concerning Hellenberger could be obtained.

The Municipal Court.

In municipal court the civil suit of Long & White vs. Cook & Dunoon for \$500 damages is still on trial. Charles Christensen and William Christerson, brothers were arraigned on the charge of petit larceny. The alleged offense consisted of the stealing of a horse from the Warner property in Woodland. The defendants will claim title to the property by right of purchase. The case will be heard Saturday morning next at 10 o'clock. Bail was fixed at \$50.

We have customer for good or to own a new and modern improvements, located in the east end.
STRYKER, MANLEY & BUCK.

THOSE WHO HUSTLE

Auspicious Opening of the First National Realty Congress Ever Held in America.

Convened in Nashville for the Purpose of Organizing a National Association.

It is the Most Notable Gathering of Business Men Ever Seen South of the Ohio.

NASHVILLE, Tenn., Feb. 17.—Real estate brokers from all parts of the country representing billions of wealth, assembled to a total of several hundred in the ball of the house of representatives this morning for the purpose of bringing into existence a national real estate association. It is one of the largest assemblies of business men ever seen south of the Ohio river. It is proposed to organize, on a legitimate basis, for promoting the interests of all the states in the matter of handling realty.

The objects of such an organization will be in part to promote a uniform mode of real estate transfers for all the states, and to formulate a plan to enable the industrial classes to secure homes for themselves, to gather and discuss statistics relating to real estate of the country, including its mineral and timber wealth, and to devise means for finding and developing this wealth for the good of the entire country.

Governor Huchanah opened with an address of welcome in which he said that the leading city of Tennessee was glad to extend its hospitality to the first national real estate congress ever held in the United States. He was followed by Mayor Guild and George H. Armistead, of the Commercial club, J. C. Bantrolf, secretary of the Nashville real estate exchange, and others responded. Hon. M. E. Fletcher was elected president and H. M. Cline secretary.

The usual committees were then appointed. This afternoon the convention discussed the question of uniform real estate transfers as well as the question as to what height buildings should be erected. Many delegates are in favor of seven stories. The convention will be in session three days and the delegates will be hospitably entertained by the business interests of the city.

MILLER PILLSBURY TALKS.
He Explains Why He Favors the Hatch Anti-Option Bill.

WASHINGTON, Feb. 17.—The house committee on agriculture resumed its hearing this morning on the Hatch anti-option bill. Charles A. Pillsbury, of Minneapolis, advocated the passage of such a measure as that under consideration. He stated that the world's supply of wheat had been growing better for five years past and the price except for the short this year has been growing better.

Mr. Pillsbury—Yes sir.
Mr. Lewis—Does not the value of money have a good deal to do with it, and is not money worth more than ever?

Mr. Pillsbury—I think that as a whole the dollar will buy more goods than ever.

Mr. Lewis—If we had \$1,000,000,000 instead of \$500,000,000 in circulation, would not the farmers get more for their wheat?

Mr. Pillsbury—More nominal dollars, but perhaps the farmers would not get more for their wheat.

Mr. Lewis—That is what is the trouble with them, is it not?

This question caused a general laugh in the committee.

Mr. Pillsbury admitted that short sell alone would not account for the decline in wheat.

Senate Option Bill.
The senate judiciary committee also this morning passed a resolution calling on the postmaster general for information relating to contracts made under the mail subsidy act and then went into the committee of the whole on the Indian appropriation bill.

The senate took up and passed the bill introduced by the late Senator Plumb requesting the President to return to the republic of Mexico 21 battle flags now in the museum of the United States military academy at West Point, captured by the United States army during the war of 1848.

The senate passed bills increasing appropriations for public buildings at St. Paul and Omaha to \$1,000,000 and \$800,000 respectively; also a joint resolution terminating the licenses of all theaters in the city of Washington unless they should, within 10 days, conform to the regulations of the district committee for public safety.

A Miniature Niagara.
The citizens of West Duluth and the west end are still taking their whiskey straight and will not be able to secure water from the city system until some time tonight. The break which is in the principal main water pipe, the west end and West Duluth is located just this side of Garfield avenue and is the worst which the city and water company has ever had. The main is a 24-inch one and its ability to scatter water over the surrounding real estate before it could be checked was something terrific.

The street below was badly flooded and some damage done. Superintendent Craig says every effort is being made to hurry the repairing of the break and it will be possible to turn the water into the main again some time tonight.

A QUESTION OF FEES.

The Contest Case Resumed in the City Council Chamber.

The "section 30" case was resumed at the council chamber this morning and N. H. Thayer was placed on the stand. Attorney d'Autremont asked permission to allow Attorney White (who was absent) to cross examine the witness when he could attend. The witness was clerk in the United States land office at Duluth in 1885 and remained until October, 1886. He was familiar with matters relating to the disputed land tract. The witness, from his memory, testified that when the contest came up it was decided by the land office people that the contest fees should be apportioned among the contestants. Hyde and McDonald only paid a portion of the fees. S. F. White represented Hyde and McDonald at that time. On cross examination the witness said that jangles over the payment of fees frequently arose, but the witness was not quite satisfied as to the manner in which payment was made. On a redirect examination the witness testified that he came here at the time G. C. Hartley was register. J. R. Carey was register when the contest over the case arose. Hartley succeeded Carey, and Marble followed Hartley. The witness transcribed the testimony taken before Marble in the case. E. C. Swanstrom was the next witness. He was the receiver of the United States land office in Duluth in 1886. He was familiar with the Hyde, McDonald and Strand vs. F. W. Eaton contest. He remembered that the question of payment of fees arose, and that each paid for their share of the testimony, but that Hyde and McDonald did not pay all their share of the expenses of the contest, nor did they offer to pay the same.

N. B. Thayer was recalled and testified that his recollection had been refreshed since he previously had been on the stand by a conversation with R. N. Marble, and that he believed that Mr. White's position was that his clients were contestants under rule 55 instead of 54 of rules of practice of the land office.

R. N. Marble was then placed on the stand. He was register of the land office in 1886. He was in office at the time the decision was made in the case. About the payment of fees the witness remembered that the receiver took care of the payment of the fees. The question in the present case arose and was discussed for quite a length of time. Attorney Reddington then asked for an adjournment until 10 o'clock tomorrow morning, when J. H. Chandler, of Chicago, will take the stand.

TO SECURE RECOGNITION.

Duluth Men Prominent in the Democratic Love Feast at St. Paul.
The members of the democratic central committee and a number of the members of the general committee of the Minnesota association of democratic clubs, were in session at St. Paul yesterday after which the members of the democratic central committee adjourned to the headquarters of the association of democratic clubs.

There was not a large attendance at the joint meeting and there was a lack of enthusiasm. Among those present were: Chairman W. M. Campbell, D. W. Lawler and Dan Aberle, of St. Paul; Mike Mullen, of New Ulm; H. R. Wells, of Preston; M. Thomas, of Duluth; J. M. possible, of Duluth; and others. The members of the association, of the democratic central committee and Hon. T. E. Bowen and C. P. Maginnis, of Duluth, members of the association. The date fixed for the convention was March 31 at St. Paul.

The leaders of the North Star club propose to obtain recognition from the democratic central committee, and appointed the three mayors, Smith, Winston and Durant, F. W. Lyons, of Little Falls; C. Baxter, of Perham; Thomas E. Bowen, of Duluth, and Senator Mayo, of Rochester, to wait upon the committee and secure the adoption of the following resolutions:

Whereas, the North Star Association of Democratic clubs has, by its energy and loyalty, succeeded in gaining strong foothold in the state; resolved, that we recognize it as filling an important place in the organization of the party.

Resolved, that we render such aid as lies in the power of this committee in furthering its success.

Benefit Concert.
The following program has been prepared for the benefit concert which will be given for Professor C. H. Trautvetter by the Duluth Concordia society, on Sunday evening at Turner hall.

To conclude with a musical sketch called "The Honey Moon," or "The Quintessence of Marriage," from the pen of C. A. Goerner. The following persons will participate in same as follows:

Honey Clouds, governmental secretary.
Ella, his wife.....Mr. F. v. Toerner
Ucle Talked death.....Mr. Carl Thiel

BOYD AND BOIES.
They Deliver Addresses at a Festive Democratic Banquet.
OMAHA, Neb., Feb. 17.—About 200 guests attended the democratic banquet given last night in honor of Governor Boyd's restoration to office. Win, music and oratory was the program. As Governor Boyd rose to respond to the toast "Citizenship" he was greeted with a mighty wave of applause lasting for several minutes. The governor's speech was confined to a review of his case, in which he condemned the states supreme court as a partisan machine, held up Thayer as a usurper and lauded his own attorneys.

Governor Boies, of Iowa, was introduced as the "rising statesman of the West and a future president." He was greeted with much enthusiasm. He responded to the toast "The Iowa Democracy and its Future." The toast was received from E. H. Cleveland and Senators Gorman and Hill. Abram S. Hewitt and others.

Manager Ed Welch's new play "Terrence Brady, Esq.," is attracting large audiences at the Parlor this week. The author sustains the title role in a spirited manner, and the piece is having a successful run.

Ex-Governor Campbell and party are expected to arrive from St. Paul this afternoon.

Mrs. Thomas Sexton entertained the ladies of the Pilgrim congregational church this afternoon.

The Knights of Pythias will celebrate the 20th anniversary of the order by a social on Friday evening.

One of the Assembly club dances will be held at the Spaulding this evening. A good attendance is expected.

The missionary conference, of which there has been so much talk, begins this afternoon at the First Baptist church.

Hand concert at Zenith ice rink this evening.

The rapid increase of The Herald's circulation proves that the people of Duluth like a newspaper that publishes all the news.

Only two more days of the auction sale at Weber's bargain store. On Sunday, the last day of the sale will be open. Mr. Weber will move the remaining goods to his store in West Superior.

A meeting of the executive committee of the Republican club was held last evening. The matter of securing speakers for Washington's birthday celebration was left with Mr. Towne.

The building inspector issued a permit this morning to James R. Wishart for a 2-story frame house, 18 by 24 ft., on the north side of Third street between Seventh and Eighth avenues west.

Articles of incorporation have been filed by the Guaranty Investment company. The incorporators are: W. E. Richardson, A. B. Chapin, E. L. Bradley, W. W. Sanford, Charles M. Gray, J. P. Johnson, C. Markell, Leonidas Merritt.

The annual meeting of the boiler inspectors is being held today in the office of Chief Inspector Clark at St. Paul. It will continue over Wednesday and Thursday. The annual reports are to be received. It is said that the president of the board, R. C. Clark, may resign, to be succeeded by W. S. Tomlin, of Duluth.

The ladies of St. Paul's Episcopal church have arranged to give a supper at the rooms of the Saturday club Thursday evening, Feb. 18, from 6:30 to 8 p. m. After the supper, which will be served up stairs, it has been arranged to have, in the large room down stairs, some music, a sale of aprons and a Valentine postoffice.

The afternoon paper gives you news while it is fresh and when you have time to read it. The Herald has the most complete and most reliable telegraphic and local news every day, and the 5 o'clock edition is delivered at your house at an hour when all members of your family can enjoy reading it. If you try it you'll like it.

Messrs. O. L. Young and A. R. MacDonald, attorneys and counsellors at law, have formed a co-partnership for the general practice of law. Their offices are at Nos. 502 and 503 National building. They will give special attention to all questions pertaining to the law of real property and will practice in all courts, state and federal.

William Thomas, colored, aged 52 years, employed as cook at the Saddle Rock restaurant, was very hilarious this morning, and when suffering from an overdose of anti-Keeley's water took to carve the proprietor up into cutlets for the patrons' breakfast. H. R. Tolson, the proprietor, objected, and the drunken knight of the culinary department will have his trial this afternoon on a charge of being drunk.

Band concert at Zenith ice rink this evening.

THEY SUE THE CITY.

The Gas & Water Company Want Their \$25,000 Annual Guarantees For Water Extensions.

The Suit Which Was Tried Before Judge Sawyer Last Year Comes Up Again.

The Work of the Term Will be Concluded by Saturday of This Week.

The district court still continues to grind out cases at a very rapid rate and the term will probably be concluded by Saturday night. An important case, that of the Gas and Water company vs. the city of Duluth, was tried and submitted yesterday. This case was first brought in August, 1891 and is to recover \$1800 on guarantees made by the city for main extensions. The case was tried before Judge Stearns who decided in favor of the city. On the general ground that it had no right to make such guarantees and could not be held liable for them. The case was appealed to the supreme court but the appeal was dismissed for the company found a technical error in their claim, using the word "annual" rental when it should have been "yearly." This defect was remedied and the company brought another suit. If now it is decided against them, they can carry it to the supreme court and get an answer to the main question at issue. The question is as to whether a city can legally enter into such a contract as did Duluth with the gas and water company, and without the danger of losing their case on the technicality mentioned. The final decision of the case involves some \$25,000 per year of the city's funds.

The routine disposition of the cases was as follows: 76, 37, 46, 38, 72 and 70 decided by stipulation or on motion. Bradley et al. vs. Brock, settled; Mishler vs. Bardon, settled; W. C. White vs. The Hurd Refrigerator company, foot of calendar; Scott & Holston vs. McIntire et al. dismissed; Hawkes vs. Frazer, tried and submitted; Oddie vs. Piper, dismissed; Lucas vs. Huntress, Brown et al. judgment for plaintiff; Henricksen vs. Scherer, judgment for plaintiff. The case taken up after the noon adjournment was Howe Lumber company vs. Wm. Forrestal et al. Judge Starr returned home this afternoon and his place has been taken by Judge Scoville. Before Judge Baxter this morning was taken up with J. B. Laurie vs. Duluth Real estate association which was tried and submitted. Russen vs. Fatten is now on trial.

ALGER WILL RUN.

L. A. Bliss, of Saginaw, Says He is a Presidential Candidate.

Among the crowd in the Spaulding rounds last evening was Hon. A. T. Bliss, of Saginaw, Mich., who represented his district in the last congress and a member of the house. "It is my first visit to Duluth since Mr. Bliss, to the general man who spoke to him, 'though I have been buying land up here for nearly six years. My trip this time was more of a general inspection than anything else. I own some iron property where the Cincinnati and Biwabik are located and some other mines. If I can get my iron property started, I shall probably leave for Saginaw.' Mr. Bliss is a warm personal friend of General Alger and the conversation drifted around to politics. 'Alger,' said Mr. Bliss, is a presidential possibility. With Mr. Blaine in the race I do not think he would have been with Blaine out of the race. I saw him Thursday last week and thought I had some little talk with him about this matter. I did not ask him the direct question as to whether or not he was a candidate. He had several important messages that day about the matter and I state it merely as my opinion that he will be a candidate before the convention. There is evidently some one who feels him for it. He is already being attacked. The stories which have been given out for publication against him have some definite basis. It is charged that he was a coward and that he is practically deserted. Now the facts as I know are about this way. At the time of the battle in question, Alger by command of Custer covered the retreat and stayed at his post of duty until ordered to the hospital by the brigade surgeon who now lives at Detroit, who promised to send word to Custer, a report which apparently was not sent. There were special reasons about that time when Gen. Alger desired to be at home at this particular time and as he could not get permission to leave, he stayed. That is the whole story and for 30 years it was never looked on as being specially incredible to him. Now some one thinks it necessary to abuse him. If Alger goes before the convention he will have a strong following. Michigan can have of course, Pennsylvania is favorable to him. In Ohio Foraker prefers him to Harrison and in your own state Washburn is favorable to him. He is a presidential possibility with strong hopes of success if he enters the fight and I think he will. He will not be a candidate for the position of vice-president. He does not want it, but would not accept a nomination."

"How about the deep channel for the lakes?" asked the reporter as Mr. Bliss was called to join some friends. "We are heartily in sympathy with you there was the reply. All the Michigan congressmen will favor it. They dare do nothing else."

The Bethel Concert.

Of the Lutheran Sextette which appears at the Bethel on Saturday evening the Chicago Herald says: "The appearance in that city. 'The Lutheran Swedish sextette appeared before a fine audience at Central music hall last night. The organization has just arrived in the United States and brings a splendid European reputation, which was fully justified by the excellent program given last night."

A Legal Hunter.

F. H. Story, of Duluth, formerly the secretary of the park board, has just received notice that he has been engaged as assistant of the geological and natural history survey of Minnesota and instructions to collect according to law one male, female and calf caribou which according to the state game laws can be taken by no one not on the corps of the survey. The appointment is from Henry F. Nachtrieb, the state zoologist.

We have customer for good 9 or 10 room house with modern improvements, located in the east end.

STYKER, MANLEY & BUCK.

THE MARKETS.

The Local Grain Market Opens Higher and Closes Firm on Good Advance.

On strong and higher cables, and firm and higher opening quotations from all other markets, prices here started at 1/4c above last night's close on May wheat and 1/4c advanced on spot wheats. The news from outside was generally of a bullish nature. Bradstreet's report makes wheat decrease 2,000,000 bu last week. It is reported that the New York Central road will this week move 1,000,000 bu of No. 2 red winter wheat from Buffalo to New York and that Detroit will also ship 400,000 bu of red winter wheat to New York for March delivery. The "Northwest" are reported as free sellers of wheat at Chicago today. Paris cables report wheat strong and 1/4c higher with large demand from millers. Trading in May No. 1 northern wheat here today has been large and at times quite active. The market closed very strong at 1 1/4c to 1 1/2c above yesterday on cash wheats and 1 1/4c to 1 1/2c advanced on the futures.

Cash No. 1 hard firmly held, closed 1 1/4c advanced for the day at 80 1/4c bid and 88c bid for track wheat. Cash No. 1 northern closed very firm at 1 1/4c advance at 85 1/2c in store, and 87c bid on track. Cash No. 2 northern opened firm at 1 1/4c advance at 79c. Cash No. 3 spring opened at 1 1/4c advance and closed 1 1/4c further advance at 73 1/2c. Rejected wheat shared in the general advance, closed 1c above yesterday at 69 1/2c. February No. 1 hard closed 1 1/4c advanced at 87c. February No. 1 northern advanced yesterday at 85 1/2c. May No. 1 hard entirely neglected, closed firm at 1 1/4c advance at 92 1/4c bid. May No. 1 northern opened very strong at 1 1/4c above last night's close at 90 1/2c, followed by large trading, at 90 1/2c, with further large transactions at 92c and a few sales on the "split" at 89 1/2c, subsequently recovering to the opening figures. During the last hour ruled very strong, closing firm at the highest figures of the session at 90 1/4c bid.

Millstuffs, steady and unchanged at 3 1/2c.

Rax seed 1/4c higher at 92 1/2c.

Receipts, wheat, 103,457 bu.

Cars on track, 101; last year, 37.

New York Stock Market.

BY A DIRECT VOTE.

Senator Palmer Argues in Favor of
the Election of Senators by
the People.

Who, he says, are no Longer Satisfied
With the Constitutional Mode
of Election.

Senators Pay Fitting Tribute to
the Memory of Their Late Col-
league, Mr. Plumb.

WASHINGTON, Feb. 18.—In the senate today the President's message on the Choctaw and Chickasaw claims was presented. Mr. Allison referred to the importance of the matter and at his suggestion the message was ordered to be printed and laid on the table for future disposition.

Mr. Proctor introduced a joint resolution for a constitutional amendment providing that the President of the United States shall hold his office for six years and be ineligible for re-election.

At 1 p. m. Mr. Palmer took his position in the center aisle of the place usually occupied by Mr. Ransom, of North Carolina, and in clear resonant tones, addressed the senate, members on both sides of the chamber giving careful attention to his remarks.

Mr. Palmer said, in calling the attention of the senate and the country to the subject of an alteration of the constitution of the United States, which shall provide for the election of senators in congress by a direct vote of the people of the several states, by the following instructions given him in the most impressive manner by the people of the state of Illinois:

The constitutional mode of electing senators by the legislatures of the states was no longer satisfactory to the American people. It was not sufficient answer to the high popular dissatisfaction to say that it is the method provided by the constitution.

Tracing the history of the adoption of the constitution he pointed out that the instrument was not so revered as the people of the several states, by the following instructions given him in the most impressive manner by the people of the state of Illinois:

In 1787 it was believed by many that the security of property would be endangered by the direct participation of the people in the election of senators; now the rights and the liberty of the people are threatened by the overwhelming and all-pervading influence of property.

It is not necessary that I should assail or denounce those who control the enormous aggregates of either fixed or speculative property. It is enough to point to the irresistible influence of these conditions, the wealth invested in commerce, in manufactures, in the railways, the forests and the mines.

Organized action demands legislation for its protection or its benefit and its political power, whether employed in the congress of the United States or in the legislature, rarely fails of success. Organized as it is, it is so related that it can direct its influence to the attainment of any desirable end.

The property to which I have alluded has now nothing to fear from the aggressive action of the people or from their direct influence upon the government. All that they can gain by the amendment to the constitution is to have their property enlarged powers of self defense.

Senators hereafter to be elected by the people by their direct vote, will defend their homes and their property from unequal and excessive burdens. They will dignify the states for the people are the states. They will recognize their responsibility to the people who elect them, and they will find their reward in the approval of their fellow citizens whom they have faithfully served.

Mr. Chandler asked Mr. Palmer if he had any objection to allowing his resolution to remain on the table for a few days longer so that he could submit some remarks on the subject. Mr. Palmer replied that this would be in entire accordance with his views. After some remarks by Mr. Mitchell the subject was dropped for the time being.

Mr. Chilton offered a resolution providing for an amendment to the constitution providing for biennial sessions of congress. At 2 p. m. the senate suspended business to pay tribute to the memory of the late Senator Plumb and at the close of those exercises adjourned till tomorrow, when it is understood the senate will adjourn until Monday.

TARIFF, NOT SILVER.

Silver Men Agree to Shelve Bland's Bill Till Next Session.

WASHINGTON, Feb. 18.—A new and important development in the silver situation came to the surface yesterday and it may solve the problem that at present is causing considerable anxiety in the democratic camp.

It is known that the committee on rules will report a resolution setting apart a certain day for the consideration of the Bland bill. Speaker Crisp having given assurances to the silver men yesterday that such action would be taken, the silver men are now catching returns from Boston. When this resolution is submitted to the House Representative Bynum will move to amend it by substituting some day next session. He is a friend of silver but does not believe that the demand for free coinage is sufficiently pressing nor to warrant hazarding a division in the party.

There is a general opinion among the democrats who want to see the tariff kept paramount until after the presidential election that such a resolution can be passed by the combined votes of the democratic and republican opponents of silver in conjunction with the votes of those democrats who believe that postponement is the proper policy. At any rate the effort is to be made.

In the meantime the proposed joint caucus is off and no action is likely to be taken on the silver bill in the house for some time. Assurances have been given by the anti-silver men that they will be afforded sufficient time to call the caucus before the consideration of the measure is begun. A poll of the senate is said to have been made with the showing that a

free silver bill cannot pass that body. The anti-silver men, however, are not willing to let the bill through the house without a struggle simply on the supposition that it will meet defeat in the senate.

MORE OPTION TALK.
An Illinois Farmer Argues Against the Option Bill.

WASHINGTON, Feb. 18.—The senate judiciary committee today continued its hearing on the option bills. Samuel D. Alton, who describes himself as a farmer of Illinois, spoke against the passage of the bill. Trading in futures was not inaugurated for gambling purposes, but grew out of the necessities of the grain trade. The first trading in futures was inaugurated on the completion of the canal from Chicago to La Salle. The merchant, he said, could not buy the farmers' corn in winter, so he would come to Chicago and hunt up some man who would buy May corn. Then the commission man would advance money. The merchant then could buy the farmers' corn and crib it and hold it until navigation opened. This, he said, was the condition of trade in the Northwestern country today.

SWEETENED WITH ROMANCE.
Romantic Marriage of Chief Justice Fuller's Daughter Mary.

WASHINGTON, Feb. 18.—Another daughter of Melville W. Fuller, chief justice of the supreme court, has just contracted a romantic marriage. It is now the oldest daughter Mary who, contrary to her parents' wishes, has married Colin C. Manning, son of ex-Governor Manning, of South Carolina. While in Washington as private secretary to Senator Butler, Manning was presented to Miss Fuller and a mutual attachment ensued. Despite parental objection Manning continued in his attentions to Miss Fuller who with the intent to finally settle the matter was sent to Europe to finish her musical education. Miss Fuller, however, constantly corresponded with Manning. For some cause Mrs. Fuller decided to bring her daughter home and soon after her departure for Berlin it was learned that Mr. Manning had also gone abroad. While Mrs. and Miss Fuller were traveling in Italy they were met by young Manning, who soon persuaded the young couple to marry in Europe where their state of affairs, Mrs. Fuller appeared surprised and chagrined, but seeing that objection was of no avail, she reluctantly yielded, bestowed her blessing and soon after attended the wedding. She then hastened home, but the young couple are still in Europe where their honeymoon will be prolonged as long as they see fit.

ENDICOTT INVESTIGATED ALGER'S RECORD.
WASHINGTON, Feb. 18.—The publication of Gen. Alger's record has been traced indirectly to ex-Secretary of War Endicott. A former war department clerk says that during the Chicago convention in 1888 Secretary Endicott caused a thorough search of all of Gen. Alger's record made in order to injure him if nominated and when Harrison was nominated the clerks made six successive searches of Harrison's military records under Endicott's orders, but failed to find any flaw. How Dana got the Alger record for the Sun has not yet been ascertained.

BECOMING MORE SERIOUS.
INDIANAPOLIS, Feb. 18.—The strike of the machinists in the Pennsylvania Coal company's shops is assuming a serious phase. The representatives from all the machine shops along the entire system met last night at a meeting and held which lasted until an early hour this morning. The advisability of calling out all the machinists against the system was discussed and Secretary Lamb, of the international union, gives it out that the committee is empowered to finally decide upon this point. The secret session was resumed at 10 o'clock this morning. The street was in a state of excitement and gave President Frenz until tomorrow noon to accede to a demand for the restoration of his office or to resign. He held positions and grant a horizontal increase of one cent in hourly wages for motor men, drivers and conductors.

Wise Legislation.
ALBANY, N. Y., Feb. 18.—In the senate today a resolution was adopted by a unanimous vote providing for the appointment of a committee to investigate and report whether any corporation doing business as a common carrier in this state has entered into any agreement with any other corporation or corporation to advance or control the price of coal, and if so, to report by bill such remedial legislation as will counteract the evil or prevent such combinations.

No One to Blame.
INDIANAPOLIS, Feb. 18.—It is understood the coroner will exonerate the surgeon who was killed by the explosion of a charge of not taking proper precautions in the way of providing apparatus for fighting fire and from the charge that proper means of escape in case of fire were not provided. If there is any criticism at all it will be leveled at the employees who were on duty the night of the fire.

Kidnapped by Tramps.
EATONTOWN, N. J., Feb. 18.—A 7-year-old boy named Walcott, of a well-to-do family on the outskirts of town, was kidnapped yesterday by tramps while skating on a pond some distance from home. A large number of farmers and other residents of the vicinity have turned out and are aiding in the search for the stolen boy.

Well Known Turf Man Dead.
NEW YORK, Feb. 18.—David Dunham Withers, known in the turf world as the "Sage of Brookdale," died at the Brevort house this morning of iron dysentery. Withers was chairman of the board of control of racing, owner of the Astoria Turf company and has been recognized for a decade as leader of the American turf.

All Were Drowned.
NEWPORT, Ore., Feb. 18.—A small boat containing Capt. Gault and four seamen of the schooner Oscar and Hattie was capsized yesterday at Netucca and all hands were drowned. The party was in search of several deer from the vessel.

Indorse Gen. Alger's Record.
MINNEAPOLIS, Feb. 18.—The state committee of the G. A. R. today adopted a resolution endorsing the record of Gen. R. A. Alger, and scoring the New York Sun for the articles recently published reflecting upon his military career.

Freezing Weather in New England.
LYNNVILLE, Vt., Feb. 18.—This morning the thermometer here registered 34 below zero.

BOUND IN BY SNOW

Heavy Snow Storms Cause a Suspension of Railway Traffic in France and Germany.

Five Passenger Trains Buried in Huge Snow Drifts at Chateaux; Avalanches Feared.

Much Suffering and Distress Reported Among the Poor and Destitute of Paris.

PARIS, Feb. 18.—France and Germany are covered with snow to a depth that has brought railway traffic to a standstill. Southwest of this city five trains are buried in the drifts between Chateaux and St. Loup. Railway communication with Metz and other eastern cities is stopped, trains being either stalled on the way or afraid to start out.

In Switzerland travel is altogether suspended. The snow falls have been very heavy and with the slightest indications of a thaw, the usual routes will be dangerous from avalanches.

The weather is colder than at any time during the present winter. The sufferings of the poor and destitute are intense. Several have been frozen to death. The snow encumbers the streets and causes a suspension of traffic. The railways have ceased operations and nearly all the omnibuses have stopped running.

TALE OF CRUELTY.
Lord Montagu's Daughter Kills Her Little Child by Torture.

BELFAST, Feb. 18.—A dispatch from Colrain, county Londonderry, says that Mrs. Anna Margaret Montagu, daughter of Lord Robert Montagu, was committed for trial this morning on the charge of causing the death of her daughter, Mary Helen Montagu, a child only 3 years old.

The child was tied to a wall in a dark room. Three hours later the room was visited and little Mary was seen huddled up under the ring in the wall her pretty curls covering her face which was hanging downward, the body being upheld by the cruel string fastened around her arms and secured to the ring referred to.

When the bright curls were brushed away from the child's forehead, it was seen that her face was horribly discolored and distorted. Further examinations showed that poor little Mary was dead, having been choked to death.

When taken into custody Mrs. Montagu sobbed bitterly and asserted that she had no intention of taking the child's life. She was utterly broken-hearted at what had occurred, and that her sole object in fastening the child to the wall was to prevent her from kicking at the door of the room in which she had been confined and so disturbing everybody in the house.

In spite of the efforts of her influential friends and relations and in spite of the pleas of able counsel she was formally committed for trial on the charge of an unrepentant murder in the first degree. She was charged with the death of her daughter Mary Helen Montagu.

Gladstone's Successor.
LONDON, Feb. 18.—Sir William Harcourt's speech at White Chapel has attracted much attention, partly from its subject matter, and partly because the orator did not deny his right to the title given him by the chairman of the evening, who spoke of him as the leader of the liberal party in the house of commons. By some of the incident is taken as indicating that Gladstone has decided not to take an active part in parliamentary proceedings again, and that he will continue to remain in the background of his life, in which case he will, of course, be the actual as well as nominal leader of the party.

The Times on the Bland Bill.
LONDON, Feb. 18.—The Times has a long article today on the Bland silver bill. The writer says: Although electioneering tactics have helped to make the bill become a law is improbable. The United States must eventually choose between the gold and silver standards, but the time is not favorable now. The argument that the bill will attract gold and raise the price of cotton and gain support for the Southern and Western farmers, but it is too flimsy to affect the North.

Tolstoy's Soup Kitchen.
LONDON, Feb. 18.—Count Tolstoy has established a soup kitchen for the relief of his famine-stricken country people. When he hears that the people of a village are starving he journeys thither and subjects the starosta, or leading elder, to a series of inquiries calculated to ascertain who are in need of relief. Besides his soup kitchen he gives rye bread and potatoes to those who are in need of relief. The peasants are most anxious to save their horses as their chief dependence for future agricultural operations.

The Queen Regent Ill.
MADRID, Feb. 18.—There is considerable anxiety expressed in regard to the health of the queen regent, Marie Christina, mother of little King Alfonso, son of the late King Alfonso XII. The queen regent has been ill for some time past and instead of improving it is admitted that the royal sufferer's sickness is increasing.

A Mining Exchange.
Articles were filed today with Register Shepherd, of the Duluth Iron and Mining exchange. The directors are G. H. Crosby, C. M. Root and F. E. Kennedy. The officers are: President, J. M. Root; vice president, Grant Wyatt; treasurer, Wyatt, J. M. Root and F. E. Kennedy. The object of the company is to establish and maintain uniform commercial usages, and adjust commercial difficulties, to establish and maintain a mining stock exchange and to promote general prosperity in the mining and mineral interests of the West.

WORST OF A DECADE.

Property Valued at \$1,250,000 Destroyed by Fire at New Orleans, Feb. 18.—The most disastrous fire of a decade visited this city last night. At 10:30 the alarm was sounded for a fire that was discovered in the immense dry goods house of A. S. Schwartz on Canal street.

The flames burst through into the piano house of F. Werlin and then across to Bourbon street and the fire wave continued its work of destruction. Runkle's dry goods house was the next to ignite and was soon a roaring furnace. Wenger's beer garden and variety theater, adjoining Runkle's, were swept away as if they were a tinder box. The Bourbon street entrance of R. D. Holmes' large dry goods store caught fire and was also soon in ruins.

The losses on stock as near as can be estimated now is as follows: A. S. Schwartz, dry goods, \$500,000; P. Werlin, pianos and musical instruments, \$80,000; Clevenger, drug store, \$200; Runkle, dry goods, \$75,000; Wenger, beer garden, stock and building, \$32,000; D. Holmes, dry goods, \$25,000; Kuehn, fancy goods, \$75,000; Hoffman Bros., 18,000; Leopold Levy, carpet and drapery, \$50,000; C. Kruger, dry goods, \$30,000; A. B. Fellman, dry goods, \$32,000.

Later—the total loss by last night's fire on Canal street will not exceed \$1,250,000. Insurance covered mostly by foreign companies. Local companies will lose about \$200,000.

THE REALTY CONGRESS.
Permanent Officers Elected; Buffalo Chosen for the Next Meeting Place.

NASHVILLE, Feb. 18.—The delegates to the real estate congress were up late last evening and were slow in assembling this morning. It was 10 o'clock when President Pitcher called for order.

The first subject was the moral effects of safe investments which was discussed by Dr. Keadley. He was vociferously applauded at many points. The committee on a permanent organization made a report nominating the following officers: President, B. M. Neil, Milwaukee; secretary, M. M. Kline, Nashville; treasurer, E. W. C. Cutler, Buffalo.

The report of the committee was adopted and Buffalo was chosen as the next place of meeting.

Chicago Blaine Club.
CHICAGO, Feb. 18.—At a meeting of the Chicago Blaine club, held last evening, it was decided to go to Minneapolis and make every honorable attempt to secure the nomination of James G. Blaine for president. Several speeches on Mr. Blaine's second term declaring he would not be a candidate for re-election and the conclusion was reached that the secretary of state should be willing to accept the nomination for the sake of the party, and the conviction was expressed that the Minneapolis convention would unanimously tender him the nomination.

Harrison a Candidate.
NEW YORK, Feb. 18.—The Sun states that Stephen B. Elkins, secretary of war, announced yesterday in a letter to a personal friend here in New York that President Harrison is a candidate for re-nomination. The secretary added that the President would, moreover, be the choice of the Minneapolis convention, and furthermore, committed for trial and is likely to have an unpleasant time in which he had been confined and so disturbing everybody in the house.

Washington's Birthday Celebration.
The arrangements for the celebration of Washington's birthday next Monday evening are nearly made. The celebration will probably be held in Temple Opera house. There will be both band and vocal music; the latter including songs by a male quartet. Speeches will be made on special topics assigned by the committee, and speakers will be Rev. C. C. Salter, Judge Morris, C. A. Towne, Hon. O. D. Kinney, S. A. Thompson, Ellsworth Benham and M. A. Hays. One or two others are yet to be seen. The program will be announced later. All indications point to a most successful celebration. It will be under the auspices of the St. Louis County Republican club.

Have Discovered Ganister.
An important discovery has been made on the Mesaba range which is another indication that Duluth was intended as a great iron manufacturing center. Ganister is a peculiar rock containing silica, which, on being ground and assayed, is used as a lining for Bessemer converters. That found on the range is located about one mile from the road and about six miles from Mesaba station. A car of it is shipped every day, of which a part goes to the steel works at Superior and a part to Chicago. Blast furnaces and steel plants complete have not yet been found but probably will be, and in the meantime there is abundant evidence without them that Providence intended Duluth to manufacture iron and put every thing necessary where it would be handy.

Will Not Ounage the Date.
There has been much newspaper comment on the subject of changing the date of the Grand lodge meeting of the Odd Fellows, which was fixed for June 7 at Duluth, the same day as that fixed for opening the republican convention at Minneapolis. In an interview at Minneapolis yesterday Grand Master Johnson said: "There will be no change in the date for the convention. Some of the members of the order have expressed a desire to have the meeting later in the month on account of the national convention in Minneapolis, but as this does not meet with unanimous favor the date will not be changed." The matter had been referred to the local lodges, but without waiting for a reply from them, the grand officers took the matter in their own hands and decided it.

Broke His Leg.
John Morray, by a fall on a slippery sidewalk, this morning, and broke his right leg; just below the knee. A pack was called and he was removed to his home on West Fifth street where he was given the necessary surgical attendance.

The Earth Trembles.
BANGOR, Maine, Feb. 18.—A slight earthquake shock was felt here yesterday.

Wall Papers.
In great variety at F. B. Butts & Co., 16 East Superior street.

Largest Circulation in Duluth.

Where delivery is irregular, please
make immediate complaint at this of-
fice.

Entered at the postoffice at Duluth, Minn., as
second-class matter.

Communication of not over 300 words, if not
objectionable, will be used entire. More lengthy
articles will, if space demands, have the verbiage
extracted. Communications not of general
interest to the public will be charged for at
special rates. Personal communications, if
used at all, will be charged for invariably.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Feb.
18.—A storm seems to be forming over Texas
and will probably reach the Ohio valley and
be doing down from the north the cold
air that is there at present.

The center of an area of high pressure is near
Duluth this morning and there is less a fall
in temperature of 25° since noon yesterday.
Snow fell in the morning and continued all day
from Chicago south. The heaviest precipitation
yesterday was at Marquette 25 inch and
Duluth 16 inch.

The temperature remains stationary in the ex-
posed North and has fallen in other sections
except the South and lake region. There is a
range of 5° between Fairbairn, N. W. T.,
40° below and Ft. Smith, Ark., 30° above.
The highest temperature in the country was 30°
was recorded at Ft. Smith, Ark., from that it fell steadily
until this morning when it registered 12° below
zero.

DULUTH, Feb. 18.—Local forecast for Duluth
until 8 a. m. Feb. 19: Continued cold and fair.
B. H. BRONSON, Forecaster.

WASHINGTON, Feb. 18.—Forecast till 8 p. m.
Friday: For Wisconsin: Cold; no heavy
snowfall generally; continued cold and
fair Friday.

For Minnesota: Fair weather; northerly
winds with cold wave in southeastern por-
tion; slightly warmer and fair Friday.

For the Dakotas: Continued cold and cloudy
weather today; warmer and fair Friday.

OUR SISTER SEAPORT.

In connection with the effort just now
being made by our neighbors over the
bay to have their subhead of navigation
made an independent port of entry, and
as a sort of consolation which together
with a liberal abuse of Duluth may sat-
isfy their impatient souls, we would re-
mind them that this is a nation whose
functions are not performed with any
particular regard for state lines and per-
sonal ends but with special reference to
the general welfare which is and shall
ever be the paramount consideration.

Whether Duluth and Superior are in
one state or in two states is of no conse-
quence to the general government, and
all blessings emanating from Washing-
ton will be showered upon us as one peo-
ple. As an illustration of this truth we
may cite the fact that although the great
bulk of the commerce of the world with
this country is done on the wharfs of
Brooklyn, Jersey City and Hoboken,
yet the only customs house for all these
points with their 1,200,000 population is
in New York. And those towns have
never complained that Gotham was try-
ing to steal their business or rob their
people of their rights.

It is therefore hardly probable that
congress will make an independent port
of entry of Superior when out of a total
of more than two thousand vessel ar-
rivals at the head of the lakes this ses-
son, all but a dozen have come into the
harbor through the Duluth canal.

So to would be to indulge in a luxury
which the general government with its
now depleted treasury can ill afford.
And if this favor were shown our sister
over the bay, why should not Brooklyn
and Jersey City, Hoboken and a hun-
dred more receive a like distinction?
Are our brethren willing to concede that
Camden, N. J., Oakland, Cal., the
suburbs of Boston and every village on
Puget Sound should have all that Super-
ior claims as of right her own? It
would be well for our neighbors to pause
long enough in the general current of
their contumely to consider some of
these facts as they exist, and to inquire
whether if responsible for the govern-
ment they would deem it wise to make
an independent port of entry at every
riparian townsite that had seen a dozen
sails in a season. This should be made
an hour of brotherly fellowship and af-
fection. Let the mystic ties of love
reach out and cling around each other
while we still insist that an average ar-
rival of one vessel a month is not en-
ough for a port of entry—and particu-
larly when Duluth is so near at hand.

GIVE US THE IRON FACTORIES.

Now that the presence of iron ore in
vast quantities on the Mesaba range is
established and railroads are pushing
into that magnetic realm, the thing to be
looked to as of prime importance to Du-
luth is the establishment of factories for
its consumption here at home. Our nat-
ural resources should be utilized for our
own greatest good, and those who can
look beyond the present to the manifest
destiny of Duluth will not tire in the ef-
fort to establish here furnaces and fac-
tories that will transmute the riches of
the hills into the myriad forms in which
iron is now made useful. The proposed
York steel plant should be secured, and
others like it would come when the first,
as it surely would do, proved successful.
There should be no two opinions in mat-
ters of this kind for the undertaking
though a great one is just our size and
should be entered into without delay.

The Herald is pleased to hear of the
efficient service rendered Duluth at
Washington by Capt. J. W. Miller, the
champion buttonholer of the Northwest.
The captain has seen some of the world
himself and can point a moral or adorn
a tale with his personal experience, thus
making himself ever a welcome com-
panion of the statesmen in their leisure
hours. He is also a gentleman of es-
thetic tastes, an admirer of the beautiful
in every form, and his stay in the cap-
ital will be made doubly joyous by the
profusion of flowers, the elaborate toilets
and the beautiful belles.

Just to show that he isn't ambitious of
political distinction, Joel Heatwole some-
times erroneously numbered among the

minor prophets, recently declined the
majority of Northfield. The task of
governing a city is greater than that im-
posed upon the president of our great
inter-oceanic country, without affording
any particular glory as an accompani-
ment, and our opinion of Joel rises as he
declines these short range distinctions.

DEEP WATER TO NEW YORK.

The work begun for deep water to the
sea is bearing fruit on every side, and the
question has quickly risen to one of na-
tional importance. This week a water-
way convention will be held in Oswego,
N. Y., and the movement for a canal via
the Hudson will receive a new impetus.
This would make a route wholly within
our own present territory, and when the
happy day of Canadian annexation shall
arrive we can utilize the Canadian canals
as a national route via the St. Lawrence.
About twenty-five miles of canal will
take shipping around Niagara falls to
Lake Ontario, and then leaving that
lake through the Oswego river and Oneida
lake it will require but a compara-
tively short canal to go over the divide
to the Mohawk valley and thence on to
the Hudson. This, indeed, requires very
little more canal than the St. Lawrence
route, and has the advantage of being
wholly within our territory while afford-
ing a more direct route to New York,
the commercial center of the continent
and soon to be of the world. The vast
traffic at New York tends to make
cheaper freight rates, and though the
St. Lawrence route would be the more
direct for European shipments it is ques-
tionable whether a short cut to New
York is not after all the most to be de-
sired. The entire cost, though it would
reach up close to a hundred millions,
would be saved every year by a reduc-
tion of freight charges to consumers
and producers, while the government would
be afforded a means of floating gun
boats up the lakes without trespassing
upon the dominion of our neighbors.
Both routes are needed and both in
time will come, but the most practical
thing for us to do at present is to dig a
ditch in our own domain. The question
is a very broad one and it is twenty-one
feet deep.

The people's party holds its annual
midwinter council meeting in St. Louis
on February 22, at which time important
action will be taken for amalgamating
the forces of the people's party, the
farmers' alliance, the Farmers' Mutual
Benefit association, the Knights of Labor
and many other labor orders, into a
grand political unity with which to
frighten the two old parties this fall.
Should the plan be carried out the out-
come of the presidential contest will
have a big element of uncertainty in-
jected into it.

Judge D. B. Searle, of St. Cloud, who
is just now holding court in Duluth,
would not, it is understood, accept the
Sixth district republican nomination for
congress if the democrats put up Henry
Kellar, as in such case with two good
men in the field he wouldn't know which
to vote for.

The Tilden club had a pleasant gath-
ering at its headquarters last night. El-
equent appeals were made by several
members, and the educational campaign
to be concluded with the grand Novem-
ber round-up, was begun. It is a fight
to find out which party has the best
educators.

The first public library that we have
any record of was founded at Athens in
510 B. C. Since then quite a number
have been established, including one at
Duluth. If we are some 2000 years be-
hind Athens, we are nevertheless up to
the times.

At the recent meeting of the bi-chloride
alumni in Dwight, Ill., resolutions were
passed declaring that 95 per cent of the
patients are permanently cured, and Dr.
Keeley's advent in the world was her-
alded as the second coming of the Savior.

The people of Butte, Montana, have
declared that John Chinaman must go,
and that ends the argument. In China
recently some of the natives thought the
Americans must go, and they went.
Funny how we heathens treat each other.

Our martyred president beat the old
time patriarch a point or two by chang-
ing Abraham to plain, unvarnished Abe.
And no alphabetic trio was ever so much
honored as was this. His name has
made the nations glad.

South Dakota republicans have called
their state convention on March 23 at
Chamberlain for the choice of delegates
to Minneapolis. They ought to trot out
Senator Frank Pettigrew as a bigger
man than Ben or Levi.

The old time republican leaders of the
East who want to be delegates to Minne-
apolis next June are just now singing in
delightful chorus that good old song,
"Shall we Gather at the River?"

John G. Whittier, the fireside poet,
has come out winner in a wrestle with
the grip and is now in almost his usual
health again. Blessed be the years of
his serene old age.

There are still indications that Dave
Hill will present the name of Grover
Cleveland to the Chicago convention
and tarry another term in the presi-
dential ante-room.

A writer in the New York Sun suggests
an air-tight face mask and chloroform as
a substitute for electric executions.
Death by such means would be sure and
painless.

The Milwaukee republicans have
named State Senator Paul Bechtner for
mayor of Beerville. The democrats are
sizing him up in a Peck measure.

There isn't very much distinction be-
tween a swindler and a dwindle. If the
latter advocates a cheap dollar to make
wages dwindle.

If congress splits up on the deep
waterway it will be a good illustration of
long division.

Sure enough a good many New York
democrats are on the Hill side.

The unsalted sea wants a sluiceway to
the saline deep.

'Twas now our national statesmen are not so
much interested in the rest of their kin as they
are in their own party.

This marriage license is the only legal single
tax. And you pay as you go.

'C'mon enough you can't make a seaboard
of a seaboard.

Is Chicago the American hog has the right of
weight.

An Indiana View of Hill.

The democrats of Indiana do not want
Hill for president. They concede his
ability as a political manager, and his
excellent record, in many ways, as gov-
ernor of New York. But they do not re-
gard him as the right kind of material
for a presidential candidate. They don't
like the crowd he trains with. They
don't like his attitude toward tariff re-
form, ballot reform and other issues up-
on which the democratic party has taken
advanced ground. The proportion of
Hill men among the democrats of Indi-
ana is well illustrated by the vote taken
at the annual meeting of the Democratic
Editorial association the other day. Out
of the 30 editors attending only three de-
clared themselves for Hill, and one of
these three has no party standing and
has had none for years.

The Grunfeld Concert.

The Chicago Herald says of Herr
Grunfeld, who appears at the Temple
son: "There is an unmistakable charm
in Herr Grunfeld's playing, arising pri-
marily from the earnestness of his execu-
tion and the limpidity of the tone, which
he coaxes from the piano. He accom-
plishes powerful effects, too.
Herr Grunfeld seems to be doing a
great deal like his brother in the mat-
ter of artistic temperament. His play-
ing is characterized by great purity and
sweetness of tone and elegance of touch."

The story of the comedy of "The
Cadi," which comes to the Temple on
Friday, is taken from Bill Nye's own life
while out on the frontier, and, while in-
teresting, it causes more laughter than
anything of the kind ever seen upon the
American stage. Besides the bright dia-
logue, "The Cadi" is full of popular and
catchy music, so that all classes can en-
joy an evening with Bill Nye's famous
company. The Cadi himself is a droll
chap, who resembles in appearance the
author. Mr. R. J. Dugan plays the part
and his imitation of the famous humor-
ist is said to be well worth seeing.

The Lutterman Sextette.

Of the Lutterman sextette which ap-
pears Saturday at the Bethel, the Chi-
cago Inter-Ocean says: "The voices are
sonorous, fresh, full of vigor and the
vigor of the north land, and thoroughly
blended for fine ensemble. The elabo-
ration and variety of many passages was
excellent, the delicate fading quality be-
ing beautifully sustained almost to the
whispered breath; while the joyous and
heroic element was carried with art-
istic force and finish."

"Stranger Than Fiction."

Mr. Barton tells a story on Mr. Agen
in Washington that ought not to be sup-
pressed, says the Superior Telegram.
It seems that after Mr. Barton fin-
ished his statement of the Superior-Du-
luth situation Mr. Agen, in a short
speech before the committee, to com-
pare the two cities.

You see, said Mr. Agen, "Duluth
lies on a lot of rocks, a steep incline
from the water, while Superior lies as flat
as a table, beautiful and—and"
"You mean that you lie better than
Duluth does," said Mr. Barton.

The laugh went round in a quiet way
and Mr. Agen affected not to notice the
joke while he did or he or he or he or he
tuned his talk about the advantages of
Superior.

A Lumberman's Rendezvous.

This term might be applied to Stevens
Point, located on the Wisconsin Central
lines, at the gateway to the vast forest
which extends North to Lake Su-
perior, a distance of 200 miles without a
break, on account of its vast lumber in-
terests. The Wisconsin river to which
the lumbermen have given the familiar
and somewhat affectionate title of "Old
Wisconsin," not alone acts as a lumber
feeder to the city by furnishing through
its numerous tributaries an outlet for
thousands of acres of pine in the upper
country, but it furnishes a water power
that is second only to that of Niagara
and Menasha, which cities are also lo-
cated on the "Central." Millions of feet
of lumber are cut every year, giving em-
ployment to hundreds of men. In addi-
tion to the lumber trade, it has numerous
other manufacturers; it is here where the
large car shops of the Wisconsin Cen-
tral lines are located.

For tickets, maps, pamphlets and full
information apply to G. F. McNeil, city
passenger and ticket agent, Minne-
apolis, Minn., or to Jas. C. Pond, general
passenger and ticket agent, Chicago, Ill.

There was a regular meeting of the Tilden club last evening at their rooms in the Fergusson building.

The young people of the Sacred Heart parish are rehearsing "Kathleen Mavourneen," to be produced St. Patrick's evening.

By an accident near McGregor Joseph Brona had his leg badly injured. He was brought to Duluth last night and taken to St. Mary's.

The auction sale at Weber's bargain store closes tomorrow afternoon. Everything will be sacrificed, as the store closes tomorrow evening.

The mortality reports for all the towns in the county have been received by Clerk Sinclair, of the district court. For the year ending Dec. 31 there were 638 deaths and 1360 births.

The St. Louis Land and Improvement company evidently intends to materially improve its property at the new town site of St. Louis. A mortgage of \$100,000 on certain lands has been given to the American Loan and Trust company of Massachusetts.

At the regular meeting of the Merchants' union held last evening an invitation was received from the Grocers' union, of Minneapolis, for a banquet to be held there on Feb. 22. Simon Clark, A. Kuttum, W. B. Gardner and E. L. Whittington were appointed as delegates.

Tomorrow afternoon will be your last chance to buy goods at the auction sale at Weber's bargain store. Goods will go at any price to close out.

PERSONAL.

M. J. Kane is in Minneapolis. W. C. McClure, of Saginaw, is in the city.

Charles L. Hazen has returned from Brainerd.

Miss Jennie Sutherland left this afternoon for Chicago.

A. S. Chase leaves for Los Angeles Saturday evening.

J. M. Geist has arrived safely in Mucken, Germany.

Nicholas H. Wirtz has returned from a 10 days' visit to New York city.

Mrs. R. L. Abrant left today for Baltimore for a visit with her parents.

Mrs. Hammons, late of the Richelieu, at Superior, has removed to Duluth.

A. H. Yancy, traveling passenger agent for the Burlington, is here today.

Mrs. S. N. Arthur who has been visiting in Chicago, is expected home tomorrow.

Miss Mary Harrison has returned from a two weeks' visit with friends in Manistee.

Dr. Dean, of Pittsburgh, who has been the guest of Dr. Graham, has returned home.

C. C. Nottingham has gone East for a visit at Bradford. Mrs. Nottingham will return with him.

James E. York has returned to the city on business connected with his proposed steel plant.

Miss Tracy Hartman, accompanied by her sister, Mrs. M. J. Donnelly, of St. Paul, leaves soon for Florida.

Father Kosmerl, of the German Catholic church, will be able to conduct the services next Sunday after his long illness.

Mrs. D. S. McBride leaves today for Montreal, called there by a telegram received last evening announcing the serious illness of her mother.

F. B. Ross, Northwestern passenger agent of the Kansas City road, with headquarters at St. Paul, is looking after the interests of his line in Duluth.

There will be a meeting of the Plasterers' union tomorrow evening at 8 o'clock in the hall at 104 West Second street. All members are requested to be present. By order of the secretary.

Garfield Tea is peculiarly adapted to persons of sedentary habits, as its action is mild, not drastic or constipating, leaving no after ill effects.

Comparative monthly reports published in Pioneer Fuel Co.'s space the second day of each month.

We have a customer who will exchange a limited amount of stocks of Mesaba range for uncumbered Duluth real estate.

STRYKER, MANLEY & BUCK.

THE DISTRICT COURT

The February Term Will be Completed by Next Saturday at the Latest.

The Roussain Case, by Order of the Supreme Court, is Again on Trial.

Ten Cases Disposed of by Judge Baxter Before the Noon Hour Adjournment.

There seems no doubt now but that the term of the district court will close Saturday, as the calendar for each day is being exhausted, and today at noon Judge Baxter was compelled to adjourn for want of work. The disposition made of the cases was as follows: Freimuth vs. Holden, continued; Goodall vs. Cross stricken from the calendar; Ohio Coal company vs. Oihberg & Peterson, dismissed; Morrison vs. Grant, a case regarding partnership property, an issue of fact was found; in the matter of the assignment of H. H. Bell and J. W. Anderson, insolvent, the appeal of August Stron et al, from disallowance of claim, submitted on briefs; Mary Marvin vs. Mark Whitwell, judgment for partition of property; Lucas vs. Huntress & Brown, settled; Martha Mallett and Betty Hartmann vs. Hartmann-Mallett Iron company, stricken from calendar; Buck vs. Graham et al, submitted on briefs; Duncan vs. Anderson, judgment for plaintiff.

Before Judge Searles, the morning was taken up with the case begun yesterday, that of Zec Roussain vs. J. F. Fatten et al. This case is becoming a rather celebrated one and is occupying its full share of the time of the courts. It involves the title to about 160 acres of land near Fond du Lac and a great part of the witnesses are Indians from the reservation there. The suit is a complicated one and has been once tried in 1890, when a judgment was rendered for the defendants by Judge Stearns. A motion for a new trial was made by the plaintiff, which was refused, and on this single question the case went to the supreme court. Here the ruling of the lower court was reversed and a mandate was issued ordering the case placed on the calendar for a new hearing. It is this second trial which is now being heard. The case is a decidedly interesting one in itself, and the presence of the Indian witnesses gives it a picturesque and "wild West" element.

It will probably be completed today. It is one of the long cases on the calendar and once disposed of the others will follow rapidly. The only action begun before today was that of J. F. Fatten et al. vs. J. C. Cox, Carrie N. Cox, et al, a suit to recover on a \$1500 note, secured by a mortgage on lots 8 and 9, block 4, Portland division of Duluth. Yesterday afternoon an affidavit was filed with the clerk alleging that Geo. B. Havcock was about leaving the jurisdiction without satisfying a judgment of the municipal court, and that he intended taking with him valuable jewelry not exempt from execution. The attorney asked a restraining order to prevent the diamonds in question being removed unless the judgment should be settled. The affidavit will lead to supplementary proceedings in disclosure. The case against E. J. Chipman, growing out of a suit to show cause why he should not be held in contempt for not appearing when ordered to do so in supplementary proceedings, comes up for hearing before Judge Ensign on Saturday at the special term.

Blanchard Acknowledges.

Secretary Thompson received a letter from Chairman Blanchard of the Grocers' union, of the river and harbor committee of the house acknowledging the receipt of the chamber resolutions regarding the improvement of the Duluth harbor, and promising to give the matter careful consideration. Secretary Thompson had intended to start on Monday afternoon for Oswego, but important matters have come up which will keep him one day longer. It is probable that he will go from Oswego to New York and then on to Washington. He will also attend the canal bridge hearing at Detroit and may not return to Duluth until after that is concluded, which will probably be some three or four weeks. The Montreal excursion is still being considered, but it is doubtful now if it will be carried out as intended.

The Weather.

Feb. 18, 1892.—The following variations in temperature were noted at the business district office, 330 West Superior street, today and corresponding date last year:

1891 1892

12 m. 20 12 m. -9 -4

5 p. m. 14 5 p. m. -1 -6

10 p. m. 13 10 p. m. -4 -5

Maximum 20 1892 1891

Minimum -9 -13

Daily Range 29 31

The High School Course.

Dr. Samuel G. Smith, of St. Paul, has been characterized as "one of the most eloquent men in the West." Of him the St. Paul Dispatch says: "In short the entire lecture was clothed in the choicest diction and every thought stirred with poetry as leaves with Autumn wind." It is said that "A Visit to Venice," the subject of his lecture Friday night in the Lyceum theater is his best.

He Shook His Head.

Jay W. Anderson, the well-known baseball enthusiast, was in town today, says a Superior paper. When asked as to the chances of having professional games here this season, he shook his head and said they were exceedingly slim. He thought a great opportunity had been thrown away last fall.

Good loans wanted, rates 6, 7, 8 per cent. FREDERICK P. JONES, 515 Lyceum bldg.

Frescoing, tinting and general house decorating, etc. F. E. BUTTS & CO'S, 16 East Superior street.

CHEAP RATES

To St. Louis; \$10.55 For the Round Trip.

February 20-23 inclusive "The Northwestern Line," Chicago, St. Paul, Minneapolis & Omaha railway, will sell round trip tickets to St. Louis, Mo., on account of the national convention of the Peoples party for \$10.55. Tickets open to all. A choice of routes offered via Chicago or by way of St. Paul and direct lines. Return limit March 10, 1892.

H. L. SISLER, City Ticket Agent, 332 Hotel St. Louis block.

We have customer for good 9 or 10 room house with modern improvements, located in the east end.

THE MARKETS.

Grain Prices Take a Jump, Opening and Closing Higher All Around.

Between yesterday's close and today's opening there was a very large advance in prices on this market. Chicago had advanced 2c over yesterday's close before night on curb trades. Strong cables this morning further contributed to give confidence and tone to the early market. Duluth opened at an advance of 1 1/2c on the May future. The strength of the opening did not hold, owing to late news of a bearish nature.

There was a considerable gain in the clearances yesterday. New Orleans shipped 200,000 bu of wheat and flour and New York cleared 287,545. Reports were received that French markets were weak on weather favorable to European crops. It was also currently reported that France would permanently establish her reduction duties on wheat. Breadstuffs report showed a decrease of 1,727,552 bu in wheat east of the Rockies and 514,000 west of the Rockies. In the afternoon a heavy demand from shorts started in New York and caused a general rise in prices here and other markets. Prices on May went up in the last hour from 91 1/2c to 92 1/2c. The close was steady but dull at 2c advance on the upper grades of cash, 1 1/2c on the lower grades of cash, and from 2c to 2 1/2c on futures, as compared with yesterday and 7/8c above the opening.

Cash No. 1 hard closed at 88 1/2c. Track wheat closed at 89c, 1c over yesterday. Cash No. 1 northern closed at 87 1/2c. Track wheat closed at 88c, 1c over yesterday. Cash No. 2 northern followed the general advance, closing 1 1/2c over yesterday. Cash No. 3 spring closed at 87c over yesterday's. Rejected closed 1 1/2c over yesterday at 63c. February 1 hard closed 2c over yesterday, 80c. February No. 1 northern advanced 2 1/2c over yesterday and closed at 87 1/2c. May No. 1 hard gained 2 1/2c over yesterday and closed at 91 1/2c. Northern sold fairly active early, starting at 91 1/2c, then easing off to 91 1/2c and gained strength rapidly in the last hour, closed at 92 1/2c, sellers, an advance of 2 1/2c over yesterday's close. This future sold in large lots.

Millstuffs closed steady at 43c. Fax seed closed firm at 63 1/2c, 1c advance. Receipts, wheat, 88,229 bu; flax seed, 1410.

Cars on track, 113; last year, 17.

New York Stock Market.

The following table of prices on the New York stock exchange is furnished by E. Beebe & Co., room 30, Phoenix building:

Close Yesterday.	Open Today.	Close Today.
Atchafalpa	40 1/2	40 1/2
Northwestern	117 1/2	117 1/2
Minneapolis & St. Paul	117 1/2	117 1/2
Burlington	106 1/2	106 1/2
Chicago & North Western	106 1/2	106 1/2
D. & W. Western	106 1/2	106 1/2
W. & N. Western	106 1/2	106 1/2
Lake Shore	25 1/2	25 1/2
Duluth & Northern Pacific	63 1/2	63 1/2
St. Paul & Northern Pacific	63 1/2	63 1/2
Nor. Pac. pref.	69	69
Reading	57 1/2	57 1/2
Rock Island	15 1/2	15 1/2
St. Louis & San Francisco	15 1/2	15 1/2
Sugar Trust	31 1/2	31 1/2
Western Union	89 1/2	89 1/2
Western Pacific	89 1/2	89 1/2
Whisky Trust	49 1/2	49 1/2
Wash. & Annapolis	49 1/2	49 1/2
Wash. & Annapolis	49 1/2	49 1/2
Wash. & Annapolis	49 1/2	49 1/2

New York—Money 1 1/2 @ 62 per cent. Trading was fairly active on the stock exchange this morning. In the two hours to noon the market changed hands. The opening was firm with prices generally fractionally higher than last night's closing. The range ranged from 3/4 to 3/8 per cent, the latter in New York & New England. During the early trading the market continued strong and prices changed further advances. Tennessee coal and Lake Erie & Western were especially strong, advancing 2 and 1 1/2 per cent respectively. The general market did not retain all of the early advances during the last half of the first hour. Besides the stocks named, Reading, Western Union and Chicago gas were the most active. Outside of a few of the heaviest stocks there was nothing of importance done during the second hour and the changes were slight. Chicago was a feature, advancing 1 1/2 @ 80. At noon the general market was slightly changed from last night's prices.

The Close Elsewhere.

Chicago—Wheat: May, 95c. Corn: March, 41 1/2c; May, 42 1/2c. Oats: May, 31 1/2 @ 32c. Pork: May, \$11.07. Lard, May, \$6.05.

Minneapolis—Wheat: February, 88 1/2c; May, 93c on track, No. 1 hard, 92 1/2c; No. 1 northern, 89 1/2c; No. 2 northern, 84 @ 86c.

"SECTION 30" CASE.

An Adjournment Taken on Account of a Sick Witness.

The "section 30" case was taken up again today. The first witness was Chas. P. Wheeler, of Chicago, who testified on rebuttal of the matters averred by Messrs. Macinnis and Pressnell. He was followed by Capt. Sellwood, who related the incidents of the jam at the land office when the land filings were made upon the disputed tract. Capt. Sellwood's testimony was rather amusing at times, particularly as he described the positions occupied by Messrs. Hartmann, Wheeler, Brown, Chandler, and the land office people. At the conclusion of the captain's testimony Attorney Redington filed a sworn affidavit setting forth that Attorney Draper, of this city, and J. H. Chandler, of Chicago, both material witnesses, were sick and confined to their respective homes, and he therefore asked the register to order a postponement of further hearing in the case until Tuesday, Feb. 23. It was granted.

For Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ACHESON, M.D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep 'Castoria' within easy reach." CARLOS MARTIN, D.D., New York City.

Late Pastor Bloomingdale Reformed Church.

THE CASTORIA COMPANY, 77 MURRAY STREET, NEW YORK.

For Infants and Children.

"Castoria cures Colic, Constipation, Sour Stomach, Diarrhea, Eructation, Kills Worms, gives sleep, and promotes digestion. Without injurious medication."

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."

EDWIN F. PARSONS, M.D., "The Winthrop," 1208 Street and 7th Ave., New York City.
